WHY LAMAR TRANSIT ADVERTISING?

WHY TRANSIT ADVERTISING WORKS?

• Transit advertising delivers the lowest CPM (cost per thousand impressions) of all major media.
• Transit advertising is a non-selective media choice. It is intrusive; you can’t change the channel or throw it away.
• Transit offers a stand alone advertising message, unlike the clutter of print, radio, and television.
• Transit advertisements reach exclusive areas because they are never zoned out, unlike billboards.

ADVERTISERS SAY THAT WHEN THEY USE TRANSIT IN THEIR MEDIA MIX, THE BUY FEELS MUCH “BIGGER” THAN THE ACTUAL SPEND
Your Target Audience Is On The Road

Arbitron’s Out-of-Home Advertising Study is a national survey of U.S. residents to uncover the size and composition of the Out-of-Home audience, the viewership of outdoor ads, and how Out-of-Home ads affect purchasing decisions.

TRANSIT ADVANTAGE

Transit advertising is highly effective out-of-home media, offering some of the best reach, frequency and impact in the industry. Transit displays are larger than life, uncluttered and offer exposures throughout the day.

REACH
Consumers now spend more time on the road and less time at home than ever before. As fragmented media sources compete for smaller audiences at home, transit advertising delivers one of the greatest demographic profiles and lowest cost per thousand figures in the industry. Transit can reach a market area more effectively than any other medium.

FREQUENCY
Transit advertising targets your market all day: during the drive to work, walk to lunch and bike ride before dinner. Through repetition, one display can create top-of-mind awareness and brand recognition in any media campaign. Transit displays are the answer for reaching an audience that has already turned off the radio and thrown the paper away.

IMPACT
Transit advertisements capture attention where people live, shop, work and play. Visible in downtown business centers and upscale suburbs, these displays provide local, regional and national advertisers a competitive advantage and unrivaled impact.
