Subject: Fight back against the rideshare revolution
Date: Tuesday, July 09, 2019 11:49:03 AM

SamTrans Board,

SamTrans is losing passengers to rideshare, and it's losing its fare as well.

I love SamTrans and rely on it. Please help make SamTrans and transit the choice of more commuters, residents, and visitors by supporting studies for fare integration with other agencies before rideshare companies draw away any more of your riders.

The clever business design of those companies has revolutionized urban transit. How are you responding?

WILL LEBEN
