Subject: New Scheduling Software for Paratransit
Date: Tuesday, June 14, 2022 6:16:14 PM

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders.

On Monday, June 6th, the executive committee of the San Mateo County Paratransit Coordinating Council (PCC) had an informative conversation with representatives from SamTrans on the proposed new paratransit scheduling software. We appreciate that a meeting was promptly arranged following the June 1 Board meeting and feel that the PCC has fulfilled our oversight duties.

The PCC is now in support of moving forward with the procurement process and anticipates receiving updates regarding this new system on a regular basis.

Thank you.

Subject: FW: H2 bus news: SamTrans (Calif) purchases 30 zero-emission buses (10 fuel cell)
Date: Friday, June 17, 2022 10:34:32 AM

You don't often get email from kmalone@cafcp.org. [Learn why this is important](#)

I periodically send out news clips about fuel cell buses to colleagues in the transit community and regularly conduct a fuel cell bus census. I'd love to add someone at SamTrans to the distribution.

All my best,
Keith Malone

Columbia-Willamette and Western Washington Clean Cities coalitions hosted a fascinating forum on fuel cell electric buses, with special guest Sal Llamas of AC Transit, a leader in FCEBs. I think you will find it of great interest. <http://ow.ly/CGLv50HbEPK>

Subject: H2 bus news: SamTrans (Calif) purchases 30 zero-emission buses (10 fuel cell)

SamTrans purchases 30 zero-emission buses
<https://www.samtrans.com/news/samtrans-purchase-30-zero-emission-buses>

Excerpt:

The San Mateo County Transit District (SamTrans), a public transport agency in and around San Mateo, California, will replace 30 diesel buses with 20 battery-electric buses and 10 hydrogen-fuel cell electric buses.

My current tally – likely off by 10-20, given the pace of announcements:

Operating Agency	FCEBs on the road	FCEBs in development	Shuttles/Para-transit on the road	Shuttles/Para-transit in development
CA TOTAL	66	>86	0	4
U.S. Total	80	>96	5	4
