Hello SamTrans CAC Members,

Please find below a brief update from San Mateo County Transportation Authority staff:

Last fall, TA staff presented the Mid County Multimodal Strategy to the SamTrans CAC. We're now shifting focus to South County, where we will continue identifying priority transportation projects.

The **South County Multimodal Strategy** assesses the US 101 corridor in the southern part of San Mateo County, including **Redwood City, Atherton, Menlo Park, East Palo Alto, and nearby unincorporated areas**. The project will help identify underfunded but necessary projects to develop a strategy for long-term transportation investments in South County. We will have a robust public participation process for this project including a project webpage, online survey, interactive online tool, and community pop-up events in the community. [Learn more here!](#)

Because available funding is limited, community input is essential to help prioritize projects that best serve the region's needs. We would welcome the opportunity to share more about this effort and hear your feedback.
