MASS TRANSIT Rail Update

SEPTEMBER 30, 2025

PRT avoids service cuts, fare increases for next two years with adoption of FY26 operating and capital budgets

The approved budgets allow PRT to close a projected \$100 million deficit and avoid a previously proposed 35% service reduction and 9% fare increase.

Subject: RE: Bus driver Husni Zaro ID number 888
Date: Wednesday, October 1, 2025 11:56:47 AM

To Michael Chanteloup via Joe Goethals,

Thank you for taking the time to send us your feedback. A copy of this correspondence will be provided to our Board of Directors.

We always appreciate hearing when our operators leave a positive impression with our riders, so thank you for acknowledging Operator 888 and Operator 454. Likewise, thank you for sharing your observations and concerns regarding our Route 61's operations. Please rest assured that safety is a top priority for us at SamTrans, and your comments and recommendations about the route were forwarded to the proper parties for consideration.

On the topic of bus assignment, though, we cannot promise we will be able to meet your recommendation of using one of our larger buses. We have a limited amount of equipment, which is why we deploy buses according to need. Our larger buses should already be assigned to trips that most require the extra space. Additionally, per the SamTrans Service Policy Framework, our load capacity guideline is 150% of the seats on the bus. This meets transit industry standards, including the expectation of the possibility that some riders may need to stand.

However, operational needs can change over a period of time, and we are always mindful of these shifting circumstances. To that end, SamTrans staff are closely monitoring the performance of our service, including reviewing whether lines like our Route 61 need extra support. Firsthand feedback from our riders can help in this regard, so thank you again for reaching out. And, of course, thank you for riding SamTrans.
