To Whom it May Concern,

Writing with concern about daily issues of SanTrans bus drivers, driving erratically and without care. For example, today December 12th at 8:10 AM southbound on Ravenswood Avenue and closest cross Aloma st in Menlo Park. Bus number 296 was continuously driving in the bike lane while students going to Hillview middle school and myself trying to get to downtown Menlo Park on our bicycles. We were threatened and intimidated by the actions on the driver. Please, help further educate bus drivers about the safety of all users on the road and please if not for me, for the safety of our children getting to school. The violence and intimidation against cyclist needs to end.

Submitted report: 995318, previous 995328

Respectfully,
Kevin Remie

Impressive... but did you know:
A set of four EARTHLIFT Mobile Columns from Stertil-Koni
can lift a whopping 44-ton vehicle. Now that's heavy lifting!
If you're not using **stertil-koni** **DO YOU EVEN LIFT?**

Squat-type Defect Remediation on Sound Transit and the Search for Effective Preventive Maintenance Measures

By Jeff Tuzik

While progress has been made in remediating Sound Transit's control of studs, their exact root cause remains unknown.
