Hello,

I write this email to inform you that on January 13th 2026, at 4:46 one of your busses could not complete a roundabout in the city of East Palo Alto. The roundabout is very large which was impossible for your bus to pass through which caused them to get stuck and run over the unfinished part of the roundabout which was very dangerous for the driver and passengers. I also want to mention that your driver did his best to go around but again the circumference was too large to let him pass. I have a photo showing how dangerous this roundabout is for your busses and I hope all goes well for you.
