Reimagine Dumbarton

Dumbarton Busway and Trail Project

Fall 2026

WHAT IS REIMAGINE DUMBARTON?

The Reimagine Dumbarton project's vision is to transform a former freight rail line into a 5-mile busway and walking and bicycling trail between Redwood City and East Palo Alto. The project will explore opportunities to use the Dumbarton Corridor to provide access to:

- Community destinations
- Local and regional job centers
- The regional transportation network

Between fall 2025 and winter 2026, the project team:

- Analyzed existing conditions
- Conducted Phase 1 community engagement
- Heard from more than 1,000 community members through surveys, community meetings, and pop-up events
- Used community feedback and technical analysis to develop preliminary alternatives for review

GET INVOLVED IN DESIGNING THE PROJECT

During Phase 2 of community engagement in September–October 2026, SamTrans wants your feedback to better understand which design elements, connections and community amenities are most important. This is your opportunity to help refine designs for the busway and trail project, before selecting a preferred alternative.

Community input is critical to Reimagine Dumbarton! Scan the QR code below to visit the project website and share feedback on project designs through a community survey.

Current state of the Dumbarton Corridor, 2025

How the Dumbarton Corridor could look

STUDY AREA

BUSWAY AND TRAIL PROJECT FEATURES

The project designs include ways for you to:

- Connect to the Redwood City Transit Center/Caltrain
- Ride fast, reliable, zero emission buses
- Walk, bike or roll on a new paved trail
- Cross to other neighborhoods
- Wait at high quality bus stations
- Use new public amenities like miniature parks, playgrounds, or recreational spaces

Do you want playgrounds or park spaces? Tell us what you think and get involved!
