RE: Senate Bill 741 (Blakespear) LCTOP Reform - SUPPORT

Dear Chair Wicks,

On behalf of the San Mateo County Transit District (SamTrans), I write to express our support for Senate Bill (SB) 741 (Blakespear), which would update and make critical improvements to the Low Carbon Transit Operations Program (LCTOP).

Since its creation more than a decade ago, LCTOP has proven to be one of California's most important tools for sustaining and expanding public transit. Funded through the Greenhouse Gas Reduction Fund, the program has delivered millions of dollars both to SamTrans and to our sister transit agencies across the state. SamTrans receives approximately \$2.5 million annually from LCTOP for capital funding.

Unfortunately, LCTOP has grown increasingly difficult and unwieldy to administer. Transit agencies face complicated and redundant documentation, ongoing compliance requirements, and a Caltrans review process that can be inflexible. As a result, agencies must devote staff time and resources to administrative processes that could be better spent supporting service delivery. In the current financial environment for public transit, we are working to maintain service and need every available funding source to operate as efficiently and effectively as possible.

SB 741 would modernize LCTOP by expanding eligible uses to include transit maintenance, simplifying Caltrans' administrative role to mirror existing, effective programs like the State Transit Assistance-State of Good Repair Program, and clarifying that agencies may continue funding previously approved services without having to restart the application process at regular intervals.

These changes would provide important benefits for SamTrans. The bill would give transit agencies greater flexibility to use state funds to preserve existing service and support ongoing

operations. SB 741 would also help address one of the most persistent gaps in transit funding: maintenance. Bus operators like SamTrans have very few funding sources available for maintenance and often must rely on local funds for these needs. Allowing LCTOP funds to support maintenance would help keep existing assets in good condition, improve service reliability, and support efficient transit operations.

For these reasons, SamTrans respectfully supports SB 741 and we urge you to move this bill forward. Please contact Government and Community Affairs Director Jessica Epstein at epsteini@samtrans.com if you have any question or need additional information.

Sincerely,

April Chan

Cambios en el servicio a partir del domingo 9 de agosto

Para prepararse para el otoño y el inicio del año escolar, AC Transit implementará cambios en el servicio a partir del domingo 9 de agosto. A continuación, hay un resumen de los cambios para el otoño.

Cambios más destacados:

- Las líneas 600–699 y los viajes en otras rutas que ofrecen servicio adicional a las escuelas, se reanudan en el otoño.
- Las paradas de West Oakland BART se trasladaron fuera de la estación a 7th St. y Mandela Parkway, como preparación para el inicio de las obras del desarrollo orientado al transporte público en la estación.
- La última parada de la línea 60 en CSU East Bay se trasladará a East Loop Road, en el Recreation and Wellness Center. La parada de West Loop Road

en Cal State East Bay Library será una de las paradas en los viajes hacia South Hayward BART.

- Habrá cambios en los horarios de muchas líneas, consulte la tabla.

Cambios a partir del domingo 14 de junio:

Subject: Request for Support – Preserve CSM Route Stops on Alameda De Las Pulgas

Dear Board of Sam Trams and Citizen Advisory Committee,

I am writing to urgently request support in opposing a proposed change by SamTrans that would eliminate Route CSM bus stops along Alameda De Las Pulgas, specifically at Alameda De Las Pulgas/MacArthur (Westbound) and Alameda De Las Pulgas/Barneson (Eastbound). These changes are expected to take effect in August, coinciding directly with the start of the fall semester for local schools and colleges.

The timing of this proposal is particularly concerning, as the removal of these stops would disproportionately affect students who depend on this service for their daily commute to and from the CSM campus, local schools including Borel Middle School, Aragon High School, and Serra High School, as well as families, seniors, and other riders who rely on these connections for essential activities. Implementing this change at the start of a new school year leaves students, families, and staff with little time to adjust.

I respectfully ask the advisory committee to advocate on behalf of the campus community for the preservation of safe and equitable transit access.

Public transportation is a critical resource for students who may not have access to a personal vehicle, and maintaining convenient, safe stop locations is essential to supporting student success and equitable access to education.

I would welcome the opportunity to discuss this matter further and would be happy to provide any additional information. Thank you for your time and consideration.

Respectfully,
Thai

Hi Herb,

Per our conversation, the upcoming route change for the CSM Route will impact not only CSM students and riders but also those who rely on transit for local schools like Aragon High School, Borel Middle School, and Serra High School. With the fall semester starting very shortly, this will heavily affect these communities as well.

It would be great if SamTrans could maintain at least the stops closest to the local schools (Westbound: Alameda de las Pulgas & MacArthur; Eastbound: Alameda de las Pulgas & Barneson).

Hopefully you are able to assist with this matter. Please let me know if you have any questions.

Thanks,
Thai

To Thai Le,

Thank you for taking the time to share your concerns with us about the proposed changes to Route CSM. Your feedback was forwarded to our Operations Planning team for review as part of our improvement process. Please understand we cannot promise we will be able to meet your request to retain service at Barneson, but please rest assured that Operations Planning gives all feedback they receive due consideration, and they may keep feedback in mind for future service changes even if they cannot accommodate them at present.

On behalf of the rest of SamTrans, we in Customer Service thank you again for taking the time to reach out to us. After all, we at SamTrans want to ensure we are providing our community with safe and effective transit, so it is imperative for us to constantly review and renew our service to remain in alignment with our riders' transit needs. Good or ill, we at SamTrans value feedback from the public, as it helps ensure our service remains aligned with the community we serve.

Kind regards,

Alexis Salandanan
