December 27, 2011

To the General Manager/CEO, Board of Directors of the San Mateo County Transit District and the Citizens of San Mateo County

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the San Mateo County Transit District (District) for the Fiscal Year July 1, 2010 through June 30, 2011. This transmittal letter provides a summary of the District's finances, services, achievements and economic prospects for readers without a technical background in accounting or finance. Readers desiring a more detailed discussion of the District's financial results may refer to the Management's Discussion and Analysis in the Financial Section.

Management assumes sole responsibility for all the information contained in this report, including its presentation and the adequacy of its disclosures. To the best of our knowledge, we believe this report to be complete and reliable in all material respects. To provide a reasonable basis for making this representation, we have established a comprehensive system of internal controls designed to protect the District's assets from loss, to identify and record transactions accurately and to compile the information necessary to produce financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not exceed the likely benefits, the District's internal control system intends to provide reasonable, but not absolute, assurance that the financial statements are free from material misstatement.

To test the performance of the internal control system, the District contracted for independent auditing services from Maze & Associates, a certified public accounting firm licensed to practice in the State of California. The auditor expressed an opinion that the District's financial statements are fairly stated and in compliance with accounting principles generally accepted in the United States of America. This conclusion is the most favorable kind and is commonly known as an "unqualified" or "clean" opinion.

PROFILE OF THE ORGANIZATION

Basic Information

The District is an independent political subdivision of the State of California formed by the California State Legislature on August 14, 1974 and approved by county voters in the following general election. San Mateo County is located on a peninsula south of the City and County of San Francisco, bordered on the west by the Pacific Ocean, on the east by San Francisco Bay and on the south by the counties of Santa Clara and Santa Cruz.

The overall purpose of the District is to plan, develop, finance and operate a modern, coordinated system of transportation that offers access to the many facets of San Mateo County and promotes sound growth and economic development for the region. The District provides bus transit services throughout San Mateo County, north into downtown San Francisco, and south to Palo Alto in Santa Clara County. The District also operates a paratransit service and funds shuttles, connecting rail stations to employment centers. In addition, this system works cohesively with other transportation services in the San Francisco Bay Area. No other organization within San Mateo County has a similar scope of responsibility for public transportation.

History

On January 1, 1975, the District began consolidating 11 separate municipal bus systems and initiated local bus service where none existed. By July 1976, the District had established a viable network of local bus service throughout a 446 square-mile service area in San Mateo County. In mid-1977, the District added mainline service between Palo Alto and downtown San Francisco through a contract with Greyhound Lines, Inc. and also inaugurated its Redi-Wheels demand-response service for the mobility impaired. During its history of operations, the District has provided transportation to special events such as the Democratic National Convention, the Major League Baseball World Series and All Star Games, the National Football League Super Bowl, World Cup Soccer and the American Public Transportation Association's Commuter Rail Conference.

The District has fought throughout its history to preserve passenger rail service along the San Francisco Peninsula and it led a successful campaign in 1978 to avoid an impending decision by the Southern Pacific Railroad to end service. Two years later, the California Department of Transportation negotiated a purchase of service agreement with the Southern Pacific to continue to operate the commuter rail service under the name "Caltrain" while the local counties determined if they could assume control of Caltrain. As a result, the Peninsula Corridor Joint Powers Board was formed with the three member agencies: City and County of San Francisco, San Mateo County Transit District and Santa Clara Valley Transportation Authority. The JPB purchased the Southern Pacific right of way and selected the District as the managing agency for Caltrain passenger service in 1992. Amtrak has served as the JPB's operator since that time. The success of the Caltrain service is due in significant part to this partnership between the JPB and Amtrak. The contract with Amtrak ended on June 30, 2011 but continues on a month-to-month basis until the transition to a new contractor. After a competitive process that extended over more than 15 months, the Caltrain Board of Directors, at its September 2011 meeting, authorized the award of contract to TransitAmerica Services, Inc. The new contractor will provide Rail Operations, Maintenance and Support Services for a base term of five years plus five months of mobilization.

Governance

A nine-member Board of Directors governs the District. The publicly-elected County Board of Supervisors appoints two of its own members and an individual with transportation expertise to the District board. The mayors of the cities throughout the county appoint three elected city officials, bringing the District board membership to six. These six members then select the remaining three board members from the general public, one of which must be a coastal resident. The Board of Directors meets once a month to determine overall policy for the District. In addition, the Board has created a 15-member Citizens Advisory Committee (CAC) with the principal objective of articulating the interests and needs of current and future customers.

Administration

The District operates through divisions and departments under the direction of the Executive Department.

The General Manager/CEO and the office of the District Secretary are responsible for directing and overseeing all divisions, as well as providing support to the Board of Directors.

The Finance and Administration Division is responsible for financial accounting and reporting, capital and grant administration and budgeting, operational budgeting, payroll and vendor disbursement, fare collection, investment and cash management, debt management, revenue control, purchasing, contract administration, risk management, information technology, security, safety and human resources.

The Operations, Engineering and Construction Division is responsible for SamTrans bus service, Caltrain rail service, employer and other shuttles, paratransit service pursuant to the requirements of the Americans with Disabilities Act (ADA), service planning and quality assurance, managing all capital projects including right-of-way maintenance from conceptual engineering planning through construction and acceptance.

The Office of Caltrain Modernization Program is responsible for guiding the planning and implementation of Projects that will upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail.

The Office of Planning and Development is responsible for strategic planning and performance and property management.

The Office of Public Affairs is responsible for public information, media relations, legislative activities and community outreach.

The Office of Customer Service and Marketing is responsible for customer service, marketing, sales, advertising, and distribution services.

Component Units

The District is a legally separate and financially independent entity that is not a component unit of San Mateo County or any other organization. While the District administers various activities on behalf of other agencies, such as the Peninsula Corridor Joint Powers Board (JPB), which operates Caltrain, and the San Mateo County Transportation Authority (TA), these agencies have their own separate corporate identity and governance, and they are not component units of the District. Therefore, this CAFR and the financial statements contained within represent solely the activities, transactions and status of the District.

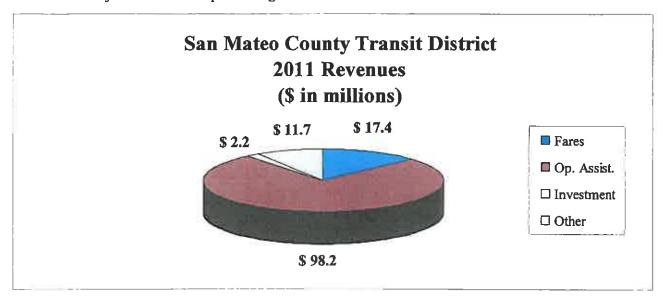

Budget

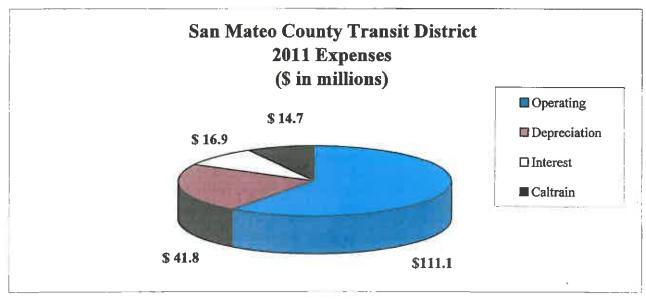

State law requires the District to adopt an annual budget by resolution of the Board of Directors. In the spring preceding the start of each fiscal year, staff presents an annual budget based on established agency goals, objectives and performance measures to the Board of Directors. The presentation may recommend using financial reserves to balance the budget when proposed expenditures exceed projected revenues. The Board of Directors monitors budget-to-actual performance through monthly staff reports. The Financial Section of this report includes a supplemental schedule that compares actual results on a budgetary basis of accounting to the final adopted budgets.

Once adopted, the Board of Directors has the authority to amend the budget. While the legal level of budgetary control is at the entity level, the District maintains stricter control at division, departmental and line item levels to serve various needs. Cost center managers monitor budget-to-actual performance monthly on an accrual basis.

The Board has delegated the authority to transfer budget amounts between divisions and departments to the General Manager/CEO or his designee. However, any increase to the expenditure budget as a whole requires the approval of the Board. In addition, the District uses the encumbrance system to reduce budget balances by issuing purchase orders to avoid over-commitment of resources.

The District employs the same basis and principles for both budgeted and actual revenues and expenses, except that actual proceeds from the sale of fixed assets, unrealized investment gains and losses and inter-fund transfers are not included in the budget. As a special purpose organization, the District is not subject to the State of California's Gann Act requiring adherence to an annual appropriation limit. The following pie charts show actual results of the major revenue and expense categories for Fiscal Year 2011.

ECONOMIC CONDITION

Local Economy

Unemployment in San Mateo County had decreased to 8.6 percent by June 2011 from 9.2 percent in June 2010 and 9.0 percent in June 2009. This compares to 11.8 percent in June 2011 in the state of California and 12.2 and 11.6 percent in June 2010 and 2009, respectively. The District's sales tax receipts increased.8.6 percent in Fiscal Year 2011 from Fiscal Year 2010 levels which were down by 2.5 percent from the prior year.

San Mateo County remains one of the wealthiest counties in California. With significant employment in diverse industries including air travel, technology, biotechnology, finance, education, conventions, tourism, agriculture and manufacturing, San Mateo County is not dependent on any one employment sector for its prosperity. This broad base will help to ensure long-term stability for San Mateo County residents.

According to the National Bureau of Economic Research's Business Cycle Dating Committee, the recession which began in December 2007 ended as of June 2009. However by the end of Fiscal Year 2011, San Mateo County was still feeling the affects. Nationally, the recession is said to have eliminated over seven million jobs, reduced economic output and decreased household net worth. It is likely that the recovery will be very slow moving with continued slow growth and high unemployment.

Long-term Financial and Strategic Planning

The District began operations in 1976 as a fixed-route bus service. Today, the District has grown into a multimodal system of coordinated transit services, including bus, paratransit, shuttles and rail, each playing an integral role in meeting the transportation needs of San Mateo County. The rising costs of providing services, coupled with the District's commitment to additional services without new revenue sources, has resulted in an unsustainable financial condition. Specifically, debt service and the costs associated with the District's commitment to BART and annual growing contributions to Caltrain are significantly impacting the long-term financial condition of the District. The District has the means to balance its budget with supplemental revenue sources through 2013; however by 2014 the District will have a budget shortfall that can not be funded by supplemental revenue sources.

The District has been working to improve its long-term financial condition through a variety of measures. Staff has initiated several efforts to help draw annual expenses in line with annual revenues. Some of the deficit reduction exercises which have been implemented over the last couple of years include a 7.5 percent service reduction, administrative layoffs, hiring and salary freezes, furlough days, fare increases, the implementation of a fuel hedge policy and program and deferring capital purchases. Over the longer term, improvement measures have included a restructuring of \$211 million in debt, dissolution of the BART to San Francisco International Airport agreement and the reauthorization of the Measure A half cent sales tax. These efforts have made a significant difference when looking at where the District stands today; however, the District is still facing a structural deficit due to a decrease in transportation funding and rising costs.

The District has recently published an updated strategic plan to guide the District through 2013. The strategic plan, which readers can view online at www.samtrans.com, is a policy framework that will guide the District's investments over the next few years. It focuses on addressing the District's structural deficit, reinventing the SamTrans family of services, linking transportation and land use investments, evolving business practices, partnering with its communities and investing in District employees to continue to achieve excellence. In going through the strategic planning process, the District decided that it needed to broaden its focus beyond operating transit to addressing mobility management, enhancing peoples' quality of life and addressing sustainability. These goals are also driving the SamTrans Service Plan (SSP) which was initiated in Fiscal Year 2011. The SSP is an effort to comprehensively review the fixed route bus service with an emphasis on increasing ridership and improving efficiency by better matching our service to the markets and communities we serve. The District's new vision is: "The District is a mobility leader, providing transportation choices and a sustainable future that

meets the needs of our diverse communities." To meet the financial integrity goal of the strategic plan, the focus will be to structure the District's services in a way that maximizes efficiencies and fare revenue while continuing to meet the needs of our transit-dependent customers.

Major Initiatives

The District plans to continue providing coordinated transit services including bus, paratransit, shuttle and rail. The Association of Bay Area Governments (ABAG) projections assume there will be intensified population growth along the El Camino Real Corridor, parallel to the Caltrain line. It also is assumed that there will be higher density development in all cities along this corridor which is expected to increase demand for transportation services.

In addition to providing local transportation for municipalities, the District has committed significant resources to support other transportation modes. These include Caltrain rail services and shuttle bus service to and from the Caltrain and BART stations. Dedicated bus shuttles distributing rail patrons to regional employers will be vital to transportation over the next several years, as local agencies are encouraged to implement Transportation Systems Management plans designed to reduce highway congestion and improve air quality. Continuing a long history of serving San Mateo County residents with mobility impairments, the District also expects to meet an expanding demand for these services through a variety of paratransit activities.

Motor Bus Operations

The District designs its service to meet the needs of Peninsula travelers with hundreds of daily trips along the Bayshore corridor between Palo Alto and downtown San Francisco. In addition, San Francisco service is provided along El Camino Real and Mission Street in the north area of San Mateo County. The buses also serve San Francisco International Airport (SFO), Caltrain and BART stations and stops in the 20 cities that make up San Mateo County.

In response to ridership and revenue declines, the District reduced its bus operation from 60 routes to 58 routes in 2003. An additional four routes were eliminated in 2004 concurrent with the opening of the BART Extension to SFO and one route was added in the same year. In 2008, one more route was eliminated. In 2009, an additional seven routes were eliminated and one route was added, representing a 7.5 percent service reduction to address the Fiscal Year 2010 budget shortfall, bringing the current total to 48 routes. Fixed-route bus ridership peaked in San Mateo County at 19.0 million in Fiscal Year 1998, but has since declined to 13.5 million in 2011.

The safety and maintenance improvement programs have produced extremely successful results. The safety program includes sensitivity training to familiarize operators with the special needs of mobility impaired passengers. Many bus operators have received safe-driving awards for up to 34 years of driving without an at-fault accident. The maintenance program has consistently improved the average time between vehicle breakdowns from year to year and is proficient at re-powering vehicles, a task rarely undertaken by other transit operators.

In Fiscal Year 2009 after completing a competitive bid process, the District Board authorized the award of a contract to Gillig for the purchase and delivery of 132 new heavy-duty buses, which are consistent with the District's adopted bus fleet emissions reduction program, to replace 1993 Gillig buses and other buses in the fleet which are at the end of their useful life. Also in Fiscal Year 2009, the District Board authorized the purchase of three 30-foot Gillig buses to operate on Route 17 in the Half Moon Bay/Coastside area. The District began taking delivery of the new buses in August 2009 and had received all of the 135 new buses by the end of Fiscal Year 2010. The last rollout of the new buses took place on September 1, 2011.

Caltrain Administration

Since 1992, the District has served as staff to the JPB that operates commuter rail service on a 77-mile corridor between San Francisco in the north and Gilroy in the south. In September 2003, Caltrain instituted a "proof-of-payment" fare collection system that has increased internal controls and freed conductors from onboard ticket sales, allowing them to focus more on customer service and safety. In June 2004, Caltrain introduced limited-stop, express service, dubbed "Baby Bullet," that reduced travel time between San Jose and San Francisco from an hour-and-a-half to just under an hour. Also in June 2004, Caltrain resumed weekend service that had been discontinued for nearly two years to allow for right of way improvements in preparation for the Baby Bullet Service. After many years of planning, Caltrain broke ground on a centralized equipment maintenance and operations facility in November 2004 that consolidated several geographically separate facilities, increasing efficiency. The grand opening of this facility occurred in September 2007.

In 2009, Caltrain entered into an agreement with the California High-Speed Rail Authority to work in partnership to advance Caltrain corridor improvements that would support improved Caltrain service and high-speed rail service. Coordination with the California High-Speed Rail Authority is identified as the Peninsula Rail Program (PRP). Current PRP efforts are focused on conceptualizing a blended rail system that would support both high-speed rail and Caltrain services sharing existing tracks to the greatest extent possible minimizing impacts on neighboring communities.

The Caltrain 2004-2023 Strategic Plan anticipates effectively meeting the region's mobility needs with service enhancements and capacity improvements through a capital program that includes corridor electrification, the operating of new, more efficient electric vehicles and the installation of an advanced signaling system. The JPB Caltrain Modernization Program is focused on implementing these projects to upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail service.

Included in the Caltrain Modernization Program is the agency's coordination with the California High-Speed Rail Authority, the state entity responsible for planning, constructing and operating the California's future high-speed rail system. The Caltrain corridor has been identified as the preferred route for the high-speed rail system between San Jose and San Francisco.

District staff produces a separate CAFR for the JPB, and readers may obtain this report upon request.

San Mateo County Transportation Authority

The District provides staff and support for the TA, which administers funds from a half-cent county sales tax authorized by voters in 1988 and extended in November 2004 by voters through 2033. Together with a series of highway projects, the TA invests in Caltrain capital improvements, as well as allocates funds for Pedestrian and Bicycle Programs, and Alternative Congestion Relief programs aimed at reducing highway congestion and air pollution.

District staff produces a separate CAFR for the TA that readers may obtain upon request.

Paratransit Services

The District provides accessible transportation services throughout San Mateo County with fixed-route, Redi-Wheels and RediCoast services. The entire fleet of fixed-route buses is equipped with wheelchair lifts or ramps and kneeling feature to make boarding easier. For some seniors and many persons with disabilities who cannot use fixed-route buses, Redi-Wheels and RediCoast are the only means of transportation available. In Fiscal Year 2011, Redi-Wheels and RediCoast vehicles and contracted taxis provided a total of 200,413 hours of service to 315,926 customers.

ACKNOWLEDGMENTS AND AWARDS

The staff and contracted firms of the District bring an effective combination of skill, experience and dedication to carrying out the District's mission. Together, they plan, develop and finance the creation of a modern, coordinated multimodal transportation system offering convenient access to the many attributes of the Bay Area and beyond. Although we expect sales tax growth to be minimal in the coming years as we emerge from the recession, the District expects the continued enthusiasm and dedication of its transit professionals to meet the transportation challenges of the future.

The Government Finance Officers Association (GFOA) recognized the District's 2010 CAFR for excellence in financial reporting and the Certificate of Achievement appears immediately following this transmittal letter. To be awarded a certificate, a report must be easy to read and efficiently organized, while satisfying both generally accepted accounting principles and applicable legal requirements. We believe our Fiscal Year 2011 CAFR also meets the requirements for a Certificate of Achievement and have submitted it to the GFOA for evaluation. We would like to thank our independent audit firm Maze & Associates, for its timely and expert guidance in this matter.

A CAFR requires the dedicated effort of many individuals working together as a team. We extend our grateful recognition to all the individuals who assisted in both the preparation of this report and the processing of financial transactions throughout the fiscal year. Finally, we wish to thank the General Manager/CEO and the Board of Directors for their interest and support in the maintenance and development of a reliable financial management and reporting system.

Respectfully submitted,

Vingia Hargton

Virginia Harrington

Deputy CEO

Director of Finance

Certificate of
Achievement
for Excellence
in Financial
Reporting

Presented to

San Mateo County Transit District, California

For its Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2010

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

BOARD OF DIRECTORS

KARYL MATSUMOTO, Chair
JERRY DEAL, Vice Chair
JEFF GEE
CAROLE GROOM
ROSE GUILBAULT
SHIRLEY HARRIS
ZOE KERSTEEN-TUCKER
ARTHUR L. LLOYD

KARYL MATSUMOTO, City Selection Committee appointee for the northern portion of San Mateo County. Ms. Matsumoto was appointed in February 2007 and currently serves as chair. Ms. Matsumoto was elected to the City of South San Francisco City Council in November 1997. She is a native Californian and has lived in South San Francisco for 27 years.

ADRIENNE TISSIER

JERRY DEAL, City Selection Committee appointee for the central portion of San Mateo County. Mr. Deal was appointed in April 2009 and currently serves as vice chair. Mr. Deal has been a member of the City Council of the City of Burlingame since 2007. He also serves as a member of the governing body of the Peninsula Corridor Joint Powers Board. Mr. Deal is principal owner of J Deal Associates, a residential design firm based in Burlingame.

JEFF GEE, City Selection Committee appointee for the southern portion of San Mateo County. Mr. Gee was appointed in June 2011. Mr. Gee has been a member of the City Council of Redwood City since 2009. He is Vice President/General Manager of Swinerton Management & Consulting and a licensed California architect. Mr. Gee is a 14 year resident of Redwood City.

CAROLE GROOM was appointed by the San Mateo County Board of Supervisor in January 2011. Ms. Groom represents the Second District which includes the cities of Belmont, Foster City and San Mateo. Prior to joining the Board of Supervisors, she served nine years on the San Mateo City Council. Ms. Groom has also spearheaded Active San Mateo County, an annual conference on creating healthy communities, and Streets Alive, an annual countywide event that promotes parks and public spaces.

ROSE GUILBAULT, public member, was appointed by the San Mateo County Transit District Board of Directors in March 2006. She is Vice President of Corporate Affairs and Publishing for California State Automobile Association, the AAA affiliate of Northern California, Nevada and Utah. Ms. Guilbault is a board trustee for the Mineta Transportation Institute. She is also author of "Farmworker's Daughter: Growing up Mexican in America", a childhood memoir.

SHIRLEY HARRIS, public member, was appointed by the District Board of Directors in January 1994 and served as the chair of the Board of Directors in 1996 and in 2001. Ms. Harris has more than 25 years of experience in telecommunications and human resource management. She is a long-time resident of Daly City.

ZOE KERSTEEN-TUCKER, public member and representative of the Coastal area, was appointed by the District Board of Directors in March 2006. She holds a doctoral degree in experimental neuropsychology from University of California, Berkeley. Ms. Kersteen-Tucker is principal owner of Pacific Development Associates which specializes in leading and training nonprofit executives and boards.

ARTHUR L. LLOYD, "Transit Expert" member, was appointed by the San Mateo County Board of Supervisors in February 1988. Mr. Lloyd also serves as a member of the governing body of the Peninsula Corridor Joint Powers Board. Prior to his retirement, Mr. Lloyd owned a charter bus company and a travel agency and held several positions at Amtrak.

ADRIENNE TISSIER, was appointed by the San Mateo County Board of Supervisors in January 2005. Ms. Tissier represents the Fifth District, which includes the cities of Brisbane, Colma, Daly City South San Francisco, and unincorporated Broadmoor Village. Ms. Tissier also serves as a member of the governing body of the Peninsula Corridor Joint Powers Board. She also represents San Mateo County and is Chair to the Metropolitan Transportation Commission (MTC), a regional transportation financing body, representing San Mateo County.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of the San Mateo County Transit District San Carlos, California

We have audited the financial statements of the business-type activities and the major fund of the San Mateo County Transit District (District) as of and for the years ended June 30, 2011 and 2010, which collectively comprise the District's basic financial statements as listed in the Table of Contents. These basic financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards in the United States of America and the standards for financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly in all material respects, the respective financial position of the business-type activities and the major fund of the San Mateo County Transit District at June 30, 2011 and 2010, and the respective changes in the financial position and cash flows, where applicable, thereof for the years then ended, in conformity with generally accepted accounting principles in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated October 19, 2011 on our consideration of the San Mateo County Transit District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the basic financial statements. The Supplemental Information and Schedule of Expenditures of Federal Awards listed in the Table of Contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Introductory Section and Statistical Section have not been subjected to the auditing procedure applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION & ANALYSIS

This discussion and analysis of the San Mateo County Transit District's (District) financial performance provides an overview of the District's activities for Fiscal Year 2011 with comparisons to the prior two fiscal years. We encourage readers to consider the information presented here in conjunction with the transmittal letter contained in the Introductory Section and with the statements and related notes contained in the Financial Section.

FINANCIAL HIGHLIGHTS

- At June 30, 2011, total assets stand at \$472.5 million, a decrease of \$38.5 million or 7.5 percent compared to June 30, 2010. The 2011 decrease was primarily due to the disposition of capital assets. At June 30, 2010, total assets stand at \$511.0 million, an increase of \$10.3 million or 2.1 percent compared to June 30, 2009. The 2010 increase was mainly due to the acquisition of 135 new 2009 Gillig buses.
- At June 30, 2011, total liabilities were \$365.0 million, an increase of \$2.2 million or 0.6 percent compared to June 30, 2010. The 2011 increase was due to increase in other noncurrent liabilities and self insurance liabilities. At June 30, 2010, total liabilities were \$362.7 million, a decrease of \$4.2 million or 1.1 percent compared to June 30, 2009. The decrease was due to a reduction in long-term debt.
- For Fiscal Year 2011, passenger fares were \$17.4 million, an increase of \$0.2 million or 1.3 percent compared
 to Fiscal Year 2010. The 2011 increase was due to an increase in fares. For Fiscal Year 2010, passenger
 fares were \$17.1 million, a decrease of \$0.2 million or 1.0 percent compared to Fiscal Year 2009. The 2010
 decrease was due to service cuts and a decrease in ridership.
- In Fiscal Year 2011, total operating expenses were \$111.1 million, a decrease of \$1.3 million or 1.1 percent compared to Fiscal Year 2010. The results were mostly due to a decrease in salaries & benefits, and miscellaneous expenses. In Fiscal Year 2010, total operating expenses were \$112.4 million, a decrease of \$4.2 million or 3.6 percent compared to Fiscal Year 2009. The decrease in 2010 was mainly due to decrease in salaries & benefits, other services and material & supplies.
- For Fiscal Year 2011, nonoperating revenues net of nonoperating expenses were \$80.4 million, an increase of \$3.4 million or 4.4 percent compared to Fiscal Year 2010. The 2011 increase was mainly due to increase in operating assistance particularly in sales taxes. In Fiscal Year 2010, nonoperating revenues net of nonoperating expenses were \$77.1 million, a decrease of \$26.9 million or 25.9 percent compared to Fiscal Year 2009. The 2010 decreases were mainly due to the receipt of the \$25.0 million corpus of the paratransit trust fund from the San Mateo County Transportation Authority in 2009.
- At June 30, 2011, net assets were \$107.5 million, a decrease of \$40.8 million or 27.5 percent from June 30, 2010. The 2011 decrease was due to disposition of capital assets. At June 30, 2010, net assets were \$148.3 million, an increase of \$14.5 million or 10.8 percent from June 30, 2009. The 2010 increase was mostly due to an increase in capital contribution for the purchase of new buses.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Section of this report presents the District's financial statements as two components: basic financial statements and notes to the financial statements. It also includes other supplemental information in addition to the basic financial statements.

SAN MATEO COUNTY TRANSIT DISTRICT MANAGEMENT'S DISCUSSION & ANALYSIS JUNE 30, 2011

Basic Financial Statements

The Statement of Net Assets presents information about assets and liabilities with the difference between the two reported as net assets. The change in net assets over time is an indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Net Assets reports how net assets have changed during the year and presents a comparison between operating revenues and operating expenses. Operating revenues and expenses are related to the District's principal business of providing bus transit services. Operating expenses include the cost of direct services to passengers, administrative expenses, contracted services and depreciation on capital assets. All other revenues and expenses not included in these categories are reported as nonoperating.

The Statement of Cash Flows reports inflows and outflows of cash and is classified into four major components:

- Cash flows from operating activities which includes transactions and events reported as components of
 operating income in the statement of revenues, expenses and changes in net assets.
- Cash flows from non-capital financing activities which include operating grant proceeds as well as operating subsidy payments from third parties and other nonoperating items.
- Cash flows from capital and related financing activities which arise from the borrowing and repayment
 (principal and interest) of capital-related debt, the acquisition and construction of capital assets and the
 proceeds of capital grants and contributions.
- Cash flows from investing activities which includes the proceeds from the sale of investments and receipt of
 interest. Outflows in this category include the purchase of investments.

Notes to the Financial Statements

Various notes provide additional information that is essential to a full understanding of the information provided in the basic financial statements and are found immediately following the financial statements to which they refer.

Other Information

This report also presents certain required supplementary information in accordance with the requirements of GASB Statements No. 25 and No. 45 providing information about the status of the District's unfunded actuarial accrued liability for its public employee retirement system and other post-employment benefits. Additional supplementary information and associated notes concerning compliance with the District's annual budget appear immediately following the required supplementary information.

Analysis of Basic Financial Statements

In Fiscal Year 2011, total assets were \$472.5 million, a decrease of \$38.5 million or 7.5 percent compared to June 30, 2010. In Fiscal Year 2010, total assets were \$511.0 million, an increase of \$10.3 million or 2.1 percent compared to June 30, 2009. Total current assets increased \$1.7 million or 1.8 percent to \$95.8 million on June 30, 2011 from \$94.1 million on June 30, 2010 and increased \$4.8 million or 5.3 percent at June 30, 2010 compared to June 30, 2009. Capital assets – net of accumulated depreciation, Capital contribution to BART – net of amortization and all other non-current assets combined, decreased by \$40.3 million or 9.7 percent in 2011 and increased by \$5.5 million or 1.3 percent in 2010. Capital assets net of accumulated depreciation decreased by \$20.2 million or 11.2 percent to \$160.2 million at June 30, 2011 compared to 2010 and increased \$45.1 million or 33.3 percent in 2010 compared to 2009. Land and right of way, buses and related equipment and building and related improvements comprise most of the District's capital assets.

SAN MATEO COUNTY TRANSIT DISTRICT MANAGEMENT'S DISCUSSION & ANALYSIS JUNE 30, 2011

In 1998, the District entered into a comprehensive agreement with BART to extend its system into San Mateo County. BART was responsible for constructing and operating new stations in the cities of South San Francisco, San Bruno and Millbrae and at the San Francisco International Airport. The District made capital contributions towards a portion of the construction costs and assumed financial responsibility for the operating results of these stations. In 2007, the District amended its agreement with BART whereby BART assumed sole operational responsibility for the San Francisco Airport extension project. Under the terms of the new agreement, the District was relieved from all obligations to pay operating or capital costs associated with the San Francisco Airport extension project and BART was relieved of the \$72 million liability for the contribution made by the District to fund the San Francisco Airport extension project. The District treated the \$72 million as a capital contribution with a 30-year life from its payment date to be consistent with all previous capital contributions to BART.

The amortized capital contribution to BART decreased by \$7.5 million or 5.3 percent to \$132.9 million in Fiscal Year 2011 compared to Fiscal Year 2010 and decreased by \$4.6 million or 3.2 percent in Fiscal Year 2010 compared to Fiscal Year 2009. Additional discussion of the District's transactions with BART can be found in Note #5 - Bay Area Rapid Transit (BART) District Extension Agreements in the Notes to the Financial Statements.

Total net assets	\$ 107,490	\$	148,274	\$	133,803		

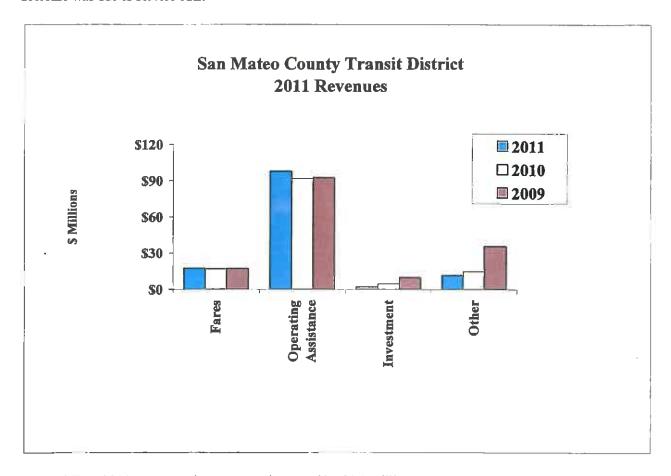

In Fiscal Year 2011, total liabilities were \$365.0 million, an increase of \$2.2 million or 0.6 percent compared to Fiscal Year 2010. The 2011 increase was due to an increase in other noncurrent liabilities and self insurance liabilities. In Fiscal Year 2010, total liabilities were \$362.7 million, a decrease of \$4.2 million or 1.1 percent compared to 2009. The 2010 decrease was mainly due to scheduled payments of principal on long-term debt.

SAN MATEO COUNTY TRANSIT DISTRICT MANAGEMENT'S DISCUSSION & ANALYSIS JUNE 30, 2011

At June 30, 2011, net assets of \$107.5 million were \$40.8 million or 27.5 percent less than the \$148.3 million at June 30, 2010 and were \$14.5 million or 10.8 percent more than on June 30, 2010 compared to \$133.8 million at June 30, 2009. The (\$18.5) million invested in capital assets net of related debt at June 30, 2011 were (17.2) percent of the total net assets. Total restricted net assets at June 30, 2011 were \$32.7 million or 30.4 percent of total net assets. The remaining \$93.3 million of total net assets at June 30, 2011 were unrestricted and represented 86.8 percent of total net assets.

Revenue Highlights

Operating revenues generated from passenger fares of \$17.4 million increased by \$0.2 million or 1.3 percent during Fiscal Year 2011 compared to Fiscal Year 2010 and decreased by \$0.2 million or 1.0 percent in Fiscal Year 2010 compared to Fiscal Year 2009. The 2011 increase was the result of fare increase and the 2010 decrease was due to service cuts.

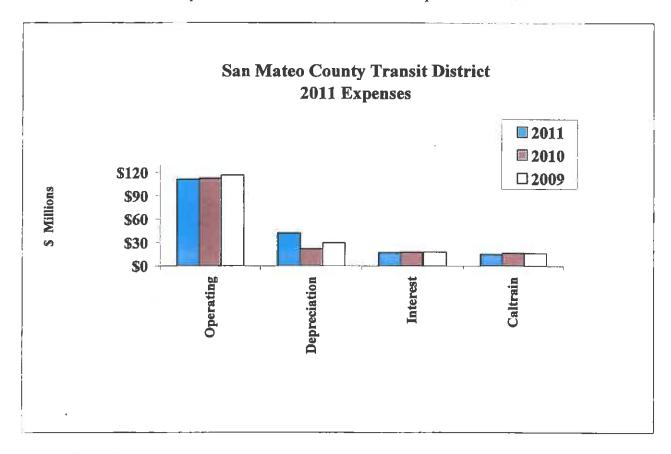

In Fiscal Year 2011, nonoperating revenues increased by \$1.1 million or 1.0 percent to \$112.1 million. This increase was due to higher sales tax collection. Operating assistance of \$98.2 million accounted for the majority of Fiscal Year 2011 nonoperating revenues. This amount consisted of 58.5 percent from transaction and use tax, 25.7 percent from local transportation funds, 7.4 percent from federal assistance and 8.4 percent from Measure A, state transit assistance and AB434 funds combined.

SAN MATEO COUNTY TRANSIT DISTRICT MANAGEMENT'S DISCUSSION & ANALYSIS JUNE 30, 2011

Expense Highlights

In Fiscal Year 2011, total operating expenses were \$111.1 million, a decrease of \$1.3 million or 1.1 percent compared to Fiscal Year 2010. In Fiscal Year 2010, total operating expenses were \$112.4 million, a decrease of \$4.2 million or 3.6 percent compared to Fiscal Year 2009. Total operating expenses in 2011 consisted of \$58.5 million or 52.6 percent for wages and benefits, \$33.3 million or 29.9 percent for contract operations and other services, and \$19.4 million or 17.5 percent for materials, insurance and other miscellaneous expenses combined. Depreciation and amortization expenses were \$41.8 million and \$21.9 million for Fiscal Year 2011 and Fiscal Year 2010 respectively, a \$20.0 million or 91.2 percent increase in Fiscal Year 2011 compared to Fiscal Year 2010 and \$7.8 million or 26.3 percent decrease in Fiscal Year 2010 compared to Fiscal Year 2009.

In Fiscal Year 2011, nonoperating expenses were \$31.6 million, a decrease of \$2.2 million or 6.6 percent compared to Fiscal Year 2010. In Fiscal Year 2010, nonoperating expenses were \$33.9 million, a decrease of \$0.3 million or 0.9 percent compared to Fiscal Year 2009. In Fiscal Year 2011, the District paid the JPB \$14.7 million for its contribution toward the Caltrain rail service operation. A more detailed discussion of the District's relationship with the JPB can be found in Note #8 – Peninsula Corridor Joint Powers Board (JPB) in the Notes to the Financial Statements.

Capital Program

The District received capital contributions of \$14.4 million in Fiscal Year 2011 and \$54.6 million in Fiscal Year 2010, which was a decrease of \$40.2 million or 73.6 percent in Fiscal Year 2011 compared to Fiscal Year 2010 and an increase of \$43.5 million or 391.9 percent in Fiscal Year 2010 compared to Fiscal Year 2009. The following is a summary of the District's major capital expenditures for Fiscal Year 2011.

- Purchase of Revenue Collection System (\$5.4 million)
- Communication Information System (\$4.3 million)
- Maintenance Facility Rehab/Repavement project (\$1.1 million)
- Purchase of Revenue vehicles (\$0.9 million)
- Replacement of bus parts in accordance with FTA guidelines (\$0.6 million)
- Capital project development, control and monitoring (\$0.5 million)

Additional information concerning the District's Capital Assets can be found in *Note #6 - Capital Assets in* the *Notes to the Financial Statements*.

SAN MATEO COUNTY TRANSIT DISTRICT MANAGEMENT'S DISCUSSION & ANALYSIS JUNE 30, 2011

Debt

The District had \$313.5 million in bonds and notes outstanding at June 30, 2011 compared to \$321.9 million at June 30, 2010, a decrease of \$8.4 million or 2.6 percent. The scheduled payment of \$8.4 million during Fiscal year 2011 accounts for this reduction. The District pledges sales tax revenues to secure its bonds and also has purchased insurance on the 1993 and 2005 Series A Bonds and setup a Bond Reserve fund on the 2009 Series A Bonds to secure the payment of principal and interest on due dates. The District retains a trustee to maintain its bond fund. More information on the District's long-term debt activity appears in Note #11 - Long-term Debt of the Notes to the Financial Statements.

Economic Factors

In September 2010, the National Bureau of Economic Research's Business Cycle Dating Committee announced that the recession, which began in December 2007 and lasted 18 months, ended in June 2009. The District is still feeling the affects of the recession. However, the District's sales tax revenues increased by 5.0 million or 8.6 percent in FY2011 to \$63.5 million compared to the decrease of \$1.5 million or 2.5 percent in FY2010. The District has taken this trend into account in its FY 2012 budget projections. Unemployment in San Mateo County was down 8.6 percent in June 2011 from 9.2 percent in June 2010 and 9.0 percent in June 2009.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the District's finances and to demonstrate accountability for the funds the District receives. If you have questions about this report or need additional financial information, please contact the San Mateo County Transit District, attn: Deputy CEO – Finance and Administration, 1250 San Carlos Ave, P.O. Box 3006, San Carlos, California 94070-1306.

NOTE 1 - OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Operations

The San Mateo County Transit District (District) was formed by the California State Legislature and approved by the electorate in 1974 to meet the public transit needs of San Mateo County. The District operates buses throughout San Mateo County and also provides, through purchased service with independent contractors, demand-responsive transportation services and certain other fixed route bus service. The District also shares in the costs of operating the Caltrain rail service. The District provided the local costs of extending the San Francisco Bay Area Rapid Transit District (BART) rail system into San Mateo County as well as the net cost to operate the extension. On April 27, 2007, the District and BART entered into a Settlement Agreement and Release of Claims to relieve the District of any and all responsibility for payment of past and future operating costs, as well as capital costs, associated with the SFO Extension.

B. Entity

The District's reporting entity includes only the District.

C. Basis of Accounting

The District is a single enterprise fund and maintains its records on the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the related liability is incurred. The District has elected under Governmental Accounting Standards Board (GASB) Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, to apply all applicable GASB pronouncements, as well as any applicable pronouncements of the Financial Accounting Standards Board, the Accounting Principles Board, or any Accounting Research Bulletins issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

D. Implementation of Governmental Accounting Standards Board Statements

GASB Statement No. 60 – In November 2010, the GASB issued Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements. The objective of this Statement is to improve financial reporting by addressing issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnerships. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011. The District has not determined its effect on the financial statements.

GASB Statement No. 61 – In November 2010, the GASB issued Statement No. 61, The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2012. The District has not determined its effect on the financial statements.

GASB Statement No. 62 — In December 2010, the GASB issued Statement No. 62, Codification of Accounting and Financial Reporting guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. The objective of this Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the FASB and AICPA pronouncements, which does not conflict with or contradict GASB pronouncements. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011. The District has not determined its effect on the financial statements.

NOTE 1 – OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Implementation of Governmental Accounting Standards Board Statements (continued)

GASB Statement No. 63 – In June 2011, the GASB issued Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position. This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011. The District has not determined its effect on the financial statements.

GASB Statement No. 64 – In June 2011, the GASB issued Statement No. 64, Derivative Instruments: Application of Hedge Accounting Termination Provisions – an amendment of GASB Statement No. 53. The objective of this Statement is to clarify whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty's credit support provider. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2011. The District has not determined its effect on the financial statements.

E. Cash and Cash Equivalents

For purpose of the statement of cash flows, the District considers all highly liquid investments with an initial maturity of 90 days or less when purchased to be cash equivalents.

F. Investments

Current investments represent securities which mature within the next 12 months. Non-current investments represent the portion of the District's investment portfolio that is not expected to be liquidated during the next 12 months. Investments in nonparticipating interest-earning investment contracts (guaranteed investment contracts) are reported at cost and all other investments are at fair value. The fair value of investments is determined annually and is based on current market prices. Investments are regulated by state and statutes and could be further restricted by the Board of Directors.

G. Restricted Cash and Investments

Restricted cash and investments represent unused bond proceeds, bond reserves and other funds designated for financing the District's principal capital projects and related debt service. These funds are held as liquid investments or have been invested in U.S. Treasury notes, mutual funds or guaranteed investment contracts.

H. Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for the same purpose (e.g. a construction project), the District's policy is to use all available restricted resources first before unrestricted resources are utilized.

I. Inventories

Inventories consist primarily of bus replacement parts and fuel and are stated at average cost. Inventories are charged to expense at the time that individual items are withdrawn from inventory.

NOTE 1 - OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

J. Property and equipment

Property and equipment are stated at historical cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets, as follows:

Buses and bus equipment	2 to 12 Years
Other vehicles, shelters and bus stops, maintenance	
and other equipment, and furniture and fixtures	3 to 20 Years
Building	30 Years
Building improvements	2 to 5 Years

The District's policy is to capitalize all property and equipment with a cost greater than \$5,000 and a useful life of more than one year.

K. Construction in progress

Construction in progress consists of the following projects at June 30, 2011 and 2010 (in thousands):

	2011		2010	
Bus fleet improvements	\$	5,725	\$	25,124
Information technology support		2,780		1,492
Bus communication system		592		2,220
Transit-oriented development		52 8		1,656
Administration building improvement		84		1,485
Other	_	96		4,448
Total Construction in Progress	\$	9,805	\$	36,425

Interest is capitalized on construction in progress in accordance with the Statement of Financial Accounting Standards No. 62, Capitalization of Interest Cost in Situations Involving Certain Tax-exempt Borrowings and Certain Gifts and Grants. Accordingly, interest capitalized is the total interest cost from the date of the borrowing net of any allowable interest earned on temporary investments of the proceeds of those borrowings until the specified asset is ready for its intended use. There was no interest capitalized in fiscal years 2011 or 2010.

L. State and Local Operating Assistance

State and local operating assistance are recorded as revenue upon approval by the granting agencies. The District serves as the cash conduit for State Transit Assistance received on behalf of the Joint Powers Board (see *Note 8*) and does not recognize revenues or expenses associated with this agency function.

NOTE 1 - OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

M. Bond Issuance Costs

Bond issuance costs are being amortized on a straight-line basis over the life of the related debt.

N. Arbitrage

Arbitrage is reviewed on an annual basis and the corresponding liability is accrued accordingly.

O. Compensated Absences

Employees accrue compensated absence time by reason of tenure at annual rates ranging from 160 to 312 hours per year. Employees are allowed to accumulate from 800 hours up to 1,440 hours of compensated absence time, depending upon the number of years of service. In fiscal years ending June 30, 2011 and 2010, employees of the District accrued and used balances of compensated absences in the amount of \$5,258,458 and \$5,257,227, respectively. At June 30, 2011 and 2010, accrued compensated absences for all District employees amounted to \$7,361,044 and \$7,359,813, respectively. The current portion of the compensated absences liability is reflected as a current liability in the statement of net assets and is expected to be used within one year. Compensated absences as of June 30 are included on the Statement of Net Assets.

The changes in compensated absences were as follows for fiscal year ended June 30 (in thousands):

		2011		2010	
Beginning Balance Additions Payments	*	\$	7,360 5,258 (5,257)	\$	7,339 5,618 (5,597)
Ending Balance		\$	7,361	\$	7,360
Current Portion		\$	6,170	\$	5,949
Non-current portion		\$	1,191	\$	1,411

NOTE 1 - OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

P. Capital Contributions

The District receives grants from the Federal Transit Administration (FTA), State, and local transportation funds for the acquisition of buses and other equipment and improvements. Capital contributions are recorded as revenues and the cost of the related assets are included in property and equipment. Depreciation on assets acquired with capital grant funds is included in the Statement of Revenues, Expenses and Changes in Net Assets.

Capital contributions for the years ended June 30 were as follows (in thousands):

	2011		 2010
Federal grants	\$	5,571	\$ 43,731
State grant (Prop 1B)		872	2,409
Local assistance – sales tax		6,045	7,230
Other local transportation funds		1,908	1,190
	\$	14,396	\$ 54,560

Q. Operating and Nonoperating Revenues and Expenses

The District distinguishes operating revenues and expenses from nonoperating revenues and expenses. Operating revenues and expenses generally result from directly providing services in connection with the District's principal operations of bus transit services. These revenues are primarily passenger fares. Operating expenses include cost of sales and services, administrative expenses, contracted services and depreciation on capital assets. All other revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

R. Use of Estimates

The District's management has made a number of estimates and assumptions relating to the reporting of assets and liabilities and revenues and expenses and the disclosure of contingent liabilities to prepare these financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Actual results could differ from those estimates.

S. Reclassifications

Certain amounts in the prior year financial statements may have been reclassified to conform to current year presentation.

NOTE 2 - CASH AND INVESTMENTS

Policies

The District's investments are carried at fair value, as required by GAAP. The District adjusts the carrying value of its investments to reflect their fair value at each fiscal year end and includes the effects of these adjustments in income for that fiscal year.

The District is in compliance with the Board approved Investment Policy and California Government Code requirements.

Classification

The District's cash and investments as of June 30 are classified in the Statement of Net Assets as follows (in thousands):

		2011_		2010	
Cash and cash equivalents	\$	16,195	\$	13,935	
Current investments		31,698		30,158	
Current restricted investments		11,197		7,530	
Noncurrent investments		60,849		69,144	
Noncurrent restricted investments		17,985		21,980	
Total Cash and Investments	_\$	137,924	\$	142,747	

The District's cash and investments consist of the following at June 30 (in thousands):

	<u></u>	2011		2010	
Cash on hand	\$	18	\$	15	
Deposits with financial institutions		3,509		1,449	
Investments		134,397		141,283	
Total Cash and Investments	\$	137,924	_\$	142,747	

NOTE 2 - CASH AND INVESTMENTS (continued)

Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code or the District's investment policy, where more restrictive. The table also identifies certain provisions of the California Government Code or the District's investment policy, where more restrictive, that addresses interest rate risk, credit risk and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the Districts investment policy.

		Maximum	Maximum Investment
	Maximum	Percentage	In One
Authorized Investment Type	Maturity	Allowed	Issuer
U.S. Treasury Obligations	5 Years	None	77
			None
U.S. Agency Securities	5 Years	None	None
Bankers' Acceptances	180 Days	40%	30%
Commercial Paper	270 Days	25%	10%
Negotiable Certificates of Deposit	5 Years	30%	None
Repurchase Agreements	1 Year	None	None
Reverse Repurchase Agreements	92 Days	20% of base value	None
Medium-Term Notes	5 Years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Trough Securities	5 Years	20%	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Investment Trust of California (CalTRUST)	N/A	None	None

Investments Authorized by Debt Agreements

Investment of debt proceeds held by bond trustees are governed by provisions of the debt covenants, rather than the general provisions of the California Government Code or the District's investment policy. These provisions allow for the acquisition of investment agreements, repurchase agreements and U.S. Treasury Securities with maturities of up to 30 years.

NOTE 2 - CASH AND INVESTMENTS (continued)

Interest Rate Risk

Interest rate risk is the risk incurred when market interest rates adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of short-term and long-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. With respect to this metric, the District's policies are as follows:

- No investment shall be made in securities with a remaining useful life exceeding 11 years
- No more than 25 percent of the portfolio shall be invested in securities with a remaining life of 5 to 11 years
- The weighted average maturity of the portfolio shall not exceed 5 years

The District's weighted average maturity of its investment portfolio at June 30, 2011 was as follows:

Investment Type		Amount	Weighted Average Maturity (in years)
U.S. Agency Securities	\$	104,440	2.03
U.S. Government Securities	Ψ	10,791	1.99
Repurchase Agreements		1,707	0.00
Medium- term Notes		2,031	0.84
Local Agency Investment Fund (LAIF)		10,960	0.65
Held by bond trustee:		·	
Money Market Mutual Funds		2,185	0.00
U.S. Agency Securities		2,283	0.73
	\$	134,397	
Portfolio Weighted Average Maturity			1.80

NOTE 2 - CASH AND INVESTMENTS (continued)

Interest Rate Risk (continued)

The District's weighted average maturity of its investment portfolio at June 30, 2010 was as follows:

Investment Type		Amount	Weighted Average Maturity (in years)
U.S. Agency Securities	\$	102,136	1.84
U.S. Government Securities		17,033	1.94
Repurchase Agreements		1,099	0.00
Medium- term Notes		5,161	1.31
Local Agency Investment Fund (LAIF)		11,372	0.56
Held by bond trustee:		•	
Money Market Mutual Funds		2,173	0.00
U.S. Agency Securities		2,309	1.73
	\$	141,283	
Portfolio Weighted Average Maturity	<u> </u>		1.68

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the actual rating as of June 30 for each investment type.

				Ratin	g as of J	une 30,	2011	
Investment Type	Amount (in thousands)		AAA		AA		Not Rated

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5 percent or more of the District's total investments are as follows at June 30 (in thousands):

Issuer	Investment Type	2011	2010
Federal Home Loan Mortgage Corporation			
(FHLMC)	U.S. Agency Securities	\$ 29,652	\$ 24,071
Federal Home Loan Bank (FHLB)	U.S. Agency Securities	15,960	34,906
Federal National Mortgage Association		-	•
(FNMA)	U.S. Agency Securities	46,680	29,831
Federal Farm Credit Bank (FFCB)	U.S. Agency Securities	11,183	11,527
		\$ 103,475	\$ 100,335

NOTE 2 - CASH AND INVESTMENTS (continued)

On August 5, 2011 Standard & Poor's Ratings Services (S&P) lowered its long-term credit rating on the United States of America from AAA to AA+. At the same time, S&P affirmed its A-1+ short-term rating on the United States of America.

On August 8, 2011, S&P lowered its issuer credit ratings and related issue ratings on ten of twelve Federal Home Loan Banks (FHLBs) and the senior debt issued by the FHLB System from AAA to AA+. S&P also lowered the ratings on the senior debt issued by the Federal Farm Credit Banks (FFCB) from AAA to AA+, and lowered the senior issue ratings on Fannie Mae (FNMA) and Freddie Mac (FHLMC) from AAA to AA+. The A subordinated debt rating and the C rating on the preferred stock of these entities remained unchanged. Finally, S&P affirmed the short-term issue ratings for these entities at A-1+. As of June 30, 2011, the District's investments in these agencies that were subject to the downgrade were as follows: FHLB \$15,959,966, FFCB \$11,182,813, FNMA \$46,840,041, and FHLM \$29,651,911.

On August 8, 2011, S&P also lowered the ratings on 126 Federal Deposit Insurance Corporation-guaranteed debt issues from thirty financial institutions that are under the temporary Liquidity Guarantee Program (TLGP), and four National Credit Union Association-guaranteed debt issues from two corporate credit unions under the Temporary Corporate Credit Union Guarantee Program (TCCUGP) from AAA to AA+. As of June 30, 2011, the District's investments in TLGP corporate debt were \$2,031,354.

Custodial Credit Risk

The custodial credit risk for *deposit* is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that in the event of the failure of the counter party (e.g. broker-dealer) to a transaction, the District will not be able to recover the value of its investment or collateral securities that are in possession of another party.

California Law requires banks and savings and loan institutions to pledge government securities with a market value of 110 percent of the District's cash on deposit, or first trust deed mortgage notes with a market value of 150 percent of the deposit, as collateral for these deposits. Under California Law this collateral is held in a separate investment pool by another institution in the District's name and places the District ahead of general creditors of the institution.

The District invests in individual investments and in investment pools. Individual investments are evidenced by specific identifiable securities instruments, or by an electronic entry registering the owner in the records of the institution issuing the security, called the book entry system. In order to increase security, the District employs the Trust Department of a bank or trustee as the custodian of certain District managed investments, regardless of their form.

As of June 30, 2011 and 2010, the District had \$3,509,715 and \$1,449,273, respectively, of deposits with financial institutions recorded on the financial statements which included excess bank balances of \$4,366,255 and \$3,015,839 respectively. These excess balances are uninsured because the cash balances, held in interest bearing accounts, are over the Federal Depository Insurance limits. However, due to California State Law, these excess balances are collateralized by securities pledged by the financial institutions holding the District's deposits.

NOTE 2 - CASH AND INVESTMENTS (continued)

Investment in State Investment Pool

The District is a voluntary participant in LAIF which is regulated by the California Government Code under the oversight of the Treasurer of the State of California. LAIF is not registered with the Securities and Exchange Commission. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

As of June 30, 2011 and June 30, 2010, the District had a contractual withdrawal value in LAIF of \$10,942,128, and \$11,353,785, respectively, that is recorded at \$10,959,878 and \$11,372,448 on the balance sheet after the adjustment for unrealized gains/losses for Fiscal Years 2011 and 2010, respectively. The total value invested by all public agencies in LAIF at June 30, 2011 and 2010 was \$66,352,783,817 and \$69,555,776,591, respectively. Of these amounts, as of June 30, 2011 and 2010, 95.0 and 94.6 percent, respectively, was invested in non-derivative financial products, and 5.0 and 5.4 percent, respectively, was invested in structured notes and asset-backed securities. The District relied upon information provided by the State Treasurer in estimating the District's fair value position of its holdings in LAIF.

NOTE 3 – OPERATING ASSISTANCE

The District receives operating assistance from various federal, state and local sources. The District receives a half-cent transaction and use tax levied on all taxable sales in San Mateo County, which is collected and administered by the State Board of Equalization. Transportation Development Act funds are received from San Mateo County to meet, in part, operating and capital requirements based on annual claims filed by the District and approved by the Metropolitan Transportation Commission (MTC). Federal funds are distributed to the District by the Federal Transportation Administration (FTA) after approval by MTC. The District also receives TA funds as a result of the approval and re-authorization of Measure A (half-cent county sales tax) for funding of transportation projects.

Operating assistance is summarized as follows for the years ended June 30 (in thousands):

	 2011		2010
Transaction and use tax	\$ 57,469	\$	51,258
Local transportation funds	25,203		27,041
Federal operating and planning assistance	7,293		10,009
State transit assistance	5,131		478
Measure A funds – local	2,541		2,339
AB434 and other	 536		547
Total	\$ 98,173	_\$	9 1,672

NOTE 4 – FEDERAL CAPITAL GRANTS

The District has seven grant contracts with the FTA that provide federal funds for the acquisition of buses and other equipment and improvements. Capital additions at June 30, 2011 and 2010 applicable to these projects are \$6,816,491 and \$53,821,428, respectively. The related federal participation is \$5,570,785 and \$43,731,189, respectively.

The District has recorded receivables of \$3,534,770 and \$6,870,863, at June 30, 2011 and 2010, respectively, for qualifying capital project expenditures under FTA grant contracts in excess of reimbursements.

Under the terms of the grants, contributions for equipment sold or retired during its useful life are refundable to the federal government in proportion to the related capital grant funds received, unless the net book value or proceeds from sale is under grant-prescribed limits.

NOTE 5 – BAY AREA RAPID TRANSIT (BART) DISTRICT EXTENSION AGREEMENTS

The District entered into a Comprehensive Agreement with the San Francisco Bay Area Rapid Transit (BART) on March 1, 1990. The purpose was to extend BART from the Daly City station to Caltrain and the San Francisco International airport via new stations at Colma, South San Francisco, San Bruno, Millbrae, and the San Francisco International Airport (SFO Extension).

The agreement called for two projects. The first was the Colma Project, approximately 1.6 miles from the existing Daly City station to the new Colma station. The second was the SFO Extension, which included construction of 10.1 miles of additional track, four additional stations and related facilities.

Under the terms of the Agreement, BART agreed to construct and operate the SFO Extension Project. The District was responsible for the net operating costs arising from operation and maintenance expenses of the Colma and SFO Extension. The Agreement also provided for a shared allocation of capital costs.

The initial Comprehensive Agreement provided that the District would pay 25 percent of the capital costs. On June 19, 1996, the Comprehensive Agreement was amended to shift the District's financial contribution from 25 percent to a capped amount of \$197 million, of which \$185 million was scheduled to be paid out of net revenues derived exclusively from the SFO Extension net operation surplus, the same funding source for the \$133 million that the District agreed to contribute in recognition of BART's prior infrastructure investments as full payment for the District's remaining project costs and capital contribution.

Pursuant to the Fourth Amendment to the Comprehensive Agreement entered into on August 31, 1999, the District loaned \$72 million to fund the SFO Extension Project as a result of higher than anticipated construction costs. In addition, the MTC provided a \$76.5 million loan, and BART provided a \$50 million loan to finance the SFO Extension project.

NOTE 5 - BAY AREA RAPID TRANSIT (BART) DISTRICT EXTENSION AGREEMENTS (continued)

BART SFO

On June 22, 2003, the SFO Extension opened, providing service to South San Francisco, San Bruno, San Francisco International and Millbrae stations. Pursuant to the Comprehensive Agreement and Amendments, operating deficits (or surpluses) of the SFO Extension are borne by (or benefit) the District.

In May 2004, the District and BART further amended the terms of the Comprehensive Agreement to revise the District's commitment for operating deficits of the SFO Extension (Fiscal Year 2005 Agreement).

As a result of disputes that arose regarding the interpretation of the Comprehensive Agreement, on April 27, 2007, the District and BART entered into a Settlement Agreement and Release of Claims (Settlement Agreement). The Settlement Agreement provides for a permanent resolution of the aforementioned disputes, specifically, the Settlement Agreement:

- 1. Terminated the Comprehensive Agreement and the Fiscal Year 2005 Agreement;
- Relieved the District of any and all responsibility for payment of past and future operating costs, as well as capital costs, associated with the SFO Extension with the exception of \$5.0 million of operating costs incurred during the Fiscal Year 2007;
- 3. Required BART to repay the District \$5,600,517 for right of way acquisition costs previously advanced by the District for right of way acquisition and other SFO Extension costs and required the District to transfer SFO Extension property to BART upon full payment of said sum by BART;
- 4. BART made the agreed upon payment and the property will be transferred upon preparation of transfer documents by BART;
- 5. Required the District to pay \$221,341 to BART for costs related to construction of a Bike Path:
- 6. Released BART from its obligation to repay amounts loaned by the District pursuant to the August 31, 1999 amendment to the Comprehensive Agreement; and
- 7. Required the District to remain responsible for providing paratransit services in the SFO Extension Project corridor.

In relation to this agreement, the District also is affected by a three-party agreement entered into in February 2007 between MTC, BART, and the District. In this agreement, the District has assigned \$32 million to BART from the State Infrastructure bonds authorized by voter approved passage of Proposition 1B on November 7, 2006 and possibly in part from "spillover" funds allocated by MTC.

NOTE 5 - BAY AREA RAPID TRANSIT (BART) DISTRICT EXTENSION AGREEMENTS (continued)

Capital Contribution to BART

Amounts capitalized as "Capital Contribution to BART" are presented below (in thousands). These capital contributions were being amortized over a period of 15 years. Due to a change in accounting estimates in Fiscal Year 2007, the amortization on these capital contributions were prospectively amended to amortize the book value over what remains in the useful life of 30 years.

Issuer	 2011	 2010
BART system contribution	\$ 100,000	\$ 100,000
Coloma extension – local share	52,352	52,352
South of Colma extension – local share	181,534	181,534
SFO BART – local share	76,404	76,159
	410,290	 410,045
Less: Accumulated amortization	 (277,395)	 (269,659)
Total	\$ 132,895	\$ 140,386

NOTE 6 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2011, was as follows (in thousands):

	Balance at July 1, 2010	Additions	Deletions	Balance at June 30, 2011
Depreciable Capital Assets				
Buses and bus equipments Buildings and building	\$ 164,448	\$ 27,811	\$ (59,404)	\$ 132,855

Capital Assets, Net	\$ 135,280	\$ 87,974	\$ (42,884)	\$ 180,370

During the fiscal year ended June 30, 2010, the District contributed \$3.1 million in completed capital assets, previously recorded in Construction in Progress, to BART.

NOTE 7 – LAND AND RIGHT OF WAY

Dumbarton Land and Right of Way

In November 1994, the San Mateo County Transportation Authority (TA) contributed the Dumbarton land and right of way to the District. The basis of this property is \$7,134,000. In December 2001, the TA contributed the Redwood City Wye land and right of way, adjacent to the Dumbarton parcels, to the District. The basis of this property is \$7,103,000.

San Carlos Land and Right of Way

On December 27, 2007, the District acquired four acres of property located in San Carlos along the Caltrain right of way from the TA for a promissory note of \$4,343,404. The fair market value for the land, accounting for the risk associated with hazardous materials, is \$7,739,455. The District recognized the difference of the fair market value and the promissory note as a local grant contribution from the TA. Originally, the property had been acquired by the TA for the purpose of constructing a railroad grade separation structure. Having completed the grade separation, the TA Board of Directors agreed to sell the property to the District. Under the terms of the transaction, the District is permitted to pay the purchase price over time subject to the payment of interest prospectively at the current rate of return earned by the TA on its investment portfolio until the principal is paid in full before December 1, 2033.

Caltrain Right of Way

On October 31, 2008, all three of the JPB member agencies signed an agreement with the District to fully resolve all outstanding financial issues related to the acquisition of the right of way. Both City and County of San Francisco (CCSF) and Santa Clara Valley Transportation Authority (VTA) have agreed to reimburse the District through a combination of gasoline tax "spillover" funds and population based "spillover" funds to be paid directly to the District from the MTC and revenue based "spillover" funds to be paid to the District from the San Francisco Municipal Transportation Agency (SFMTA) and VTA. The parties agreed to make best efforts to allocate the funds in full within two to four years and, in no event, later than 10 years. As of June 30, 2011, the District had received \$5.2 million of the total \$53.3 million outstanding per this agreement. MTC has programmed \$19.5 million in Federal funds to the District to replace part of the spillover funds. These Federal funds will be received over Fiscal Year 2012 and Fiscal Year 2013. In addition, VTA will also provide \$2.0 million in Fiscal Year 2012 and is expected to pay \$5.2 million in Fiscal Year 2013 to help offset its obligations: while CCSF is expected to reimburse the District \$1.8 million in Fiscal Year 2013. With the elimination of "spillover" funding due to a recent legislative change that impacts how certain tax revenues are generated and made available for transportation operations and projects, the multi-party agreement may need to be modified to ensure the District is repaid in full for the right of way. Ultimately, when all payments have been received by the District, the District will reconvey to the JPB all of its interests in the title to the right of way.

NOTE 8 – PENINSULA CORRIDOR JOINT POWERS BOARD (JPB)

The District is a member in the JPB along with the VTA and the CCSF. The JPB is governed by a separate board comprised of nine members – three from each member agency. The JPB was established in 1988 to keep Caltrain operating after the state's responsibility ended. The JPB was formed to plan, administer and operate the Caltrain service. The JPB began operating the Caltrain service on July 1, 1992. Prior to July 1, 1992, such rail service was operated by the California Department of Transportation (Caltrans) and Southern Pacific Railroad.

NOTE 8 - PENINSULA CORRIDOR JOINT POWERS BOARD (JPB) (continued)

During Fiscal Year 1992, the District advanced CCSF's and VTA's initial contribution in the amount of \$8,294,000 and \$34,652,000, respectively, to facilitate completion of the acquisition of the rail corridor right of way between San Francisco and San Jose and perpetual trackage rights between San Jose and Gilroy. The District and the JPB are tenants in common to all right of way property located in San Mateo County until the District receives the full reimbursement of the initial contribution plus interest from CCSF and VTA. CCSF and VTA agreed to use their best efforts individually and collectively to advocate for and obtain grants from non-local sources to reimburse the District for their additional contribution.

The District has been appointed as managing agency for JPB, providing administrative personnel and facilities. The District is responsible for 41.92 percent of the mainline net operating costs and the administrative expenses of the JPB for the years ended June 30, 2011 and 2010. The District recognizes the entire amount of contributions paid to the JPB as an expense in the year disbursed. During the years ended June 30, 2011 and 2010, the District contributed \$14,707,875 and \$16,521,290 respectively, to the JPB for operating needs.

The District has total receivables from the JPB of \$3,914,269 and \$4,360,068 at June 30, 2011 and 2010 respectively, for advances of staff support and operating costs.

The following is summary financial information (not included in the District's financial statements) for the JPB as of June 30 (in thousands):

	2011		2010
Total Assets	\$ 1,261,456	\$	1,222,379
Total Liabilities	 (81,271)		(75,379)
Total Net Assets	\$ 1,180,185	\$	1,147,000
Operating Revenues	\$ 53,296	\$	46,462
Operating Expenses	(157,747)	,	(145,983)
Nonoperating Revenues, Net	45,803		44,535
Net Before Capital Contributions	 (58,648)		(54,986)
Capital Contributions	91,834		71,579
Increase in Net Assets	\$ 33,186	\$	16,593

Complete financial statements for the JPB can be obtained from the Peninsula Corridor Joint Powers Board at 1250 San Carlos Ave., San Carlos, California 94070.

NOTE 9 - RELATED PARTY TRANSACTIONS

Note Receivable from Officer

In 2001, the District entered into an employment agreement with an officer of the District, which included an advance for personal housing. The note bears interest at 4 percent and interest is payable monthly with a maturity at September 15, 2030.

In November 2001, the District amended the terms of the note to a stated interest rate of 2.5 percent (effective rate of 2.08 percent) calculated only on the first \$1 million of the note.

NOTE 9 - RELATED PARTY TRANSACTIONS (continued)

Note Receivable from Officer (continued)

In December 2002, the District modified the housing note by forgiving \$40,000 of the loan principal. The District also introduced a provision to absorb any losses on the home, should the fair market value, at note termination, be less than the principal then outstanding.

In Fiscal Year 2011 and 2010, the District forgave \$40,000 per year of principal on the housing note. Pursuant to this agreement, the District has a note receivable included in Other Assets with a balance of \$840,000 and \$880,000, as of June 30, 2011 and 2010 respectively.

San Mateo County Transportation Authority

The TA was formed in June 1988 as a result of the approval of Measure A (half-cent county sales tax and Transportation Expenditure Plan) by the voters of San Mateo County pursuant to the Bay Area County Traffic and Transportation Funding Act. The TA was to be responsible for the administration of funds to be used for transportation projects collected over a period of 20 years by the half-cent county sales tax. The District was designated as the entity responsible for overall management of the TA. In November 2004, the voters reauthorized the TA and its publicly developed expenditure plan for an additional 25 years beyond the original expiration date of December 31, 2008. The TA will continue to fund vital transportation improvements for the benefit of San Mateo County residents through 2033.

The District provides administrative personnel and facilities. Complete financial statements for the TA can be obtained from the San Mateo County Transportation Authority at 1250 San Carlos Ave., San Carlos, California 94070.

The TA has funded various real estate acquisitions, which are necessary for transportation projects. Generally, the TA has chosen not to hold title to real estate. The District holds title to properties, both as an accommodation to TA as well as for use in transit. The District has recorded these parcels as Property and Equipment.

San Bruno Grade Separation Project - Condemnation Deposit

On January 22, 2010, The District entered into a cooperative agreement with the JPB to act as JPB's agent for right of way certification purposes in connection with the acquisition of property in the City of San Bruno as part of the JPB's San Bruno Grade Separation Project as the JPB is not legally authorized to file condemnation actions. Per the agreement, the JPB is the lead agency responsible for acquisition of the property by negotiated agreement. The District is responsible for providing all right of way related, necessary certification services including submission to appropriate authorities of all required right of way certification documentation. The District is also responsible for reviewing the Project right of way appraisal and acquisition process to assure such activities are conducted in accordance with Caltrans right of way certification requirements. Property that needs to be acquired by eminent domain shall be condemned by the District. The District shall take title to property acquired by eminent domain and transfer title to the JPB. The JPB is responsible for paying 100 percent of the acquisition costs as well as all costs of staff, consultants and legal counsel.

NOTE 9 - RELATED PARTY TRANSACTIONS (continued)

San Bruno Grade Separation Project - Condemnation Deposit (continued)

At the April 14, 2010 District Board of Directors meeting, the Board authorized an amendment to the budget allowing for up to \$1.2 million to be spent in relation to the JPB's San Bruno Grade Separation Project. On April 15, 2010, the District wired \$1.048 million to the California State Treasurer for the condemnation deposit on property being acquired by eminent domain for the San Bruno Grade Separation Project. The JPB promptly reimbursed the District on May 10, 2010.

NOTE 10 - OTHER NONCURRENT LIABILITIES

On December 27, 2007, the District acquired from the TA four acres of property located in San Carlos along the Caltrain right of way for a promissory note of \$4,343,404. The District also has an accrued interest liability of \$554,321 and \$473,073, respectively, as of June 30, 2011 and 2010 for the promissory note. See *Note 7 -Land and Right of Way*.

NOTE 11 - LONG - TERM DEBT

Composition and Changes

The District generally incurs long-term debt to finance projects or purchase assets, which will have useful lives equal to or greater than the related debt. The District's debt issues and transactions are summarized below and discussed in detail thereafter.

Long-term debt activity for the year ended June 30, 2011 is as follows:

	Original Issue	Balance June 30,			Balance June 30,	Current

Description of the District's Long-Term Debt Issues

1993 Series A Bonds – In June 1993, the District issued \$150,555,000 of 1993 Series A Limited Tax Bonds (1993 Series A Bonds) to refund a portion of the 1990 Series A Bonds (pursuant to a crossover refunding) and to reimburse the District for prior capital project expenditures. The 1993 Series A Bonds, with interest rates ranging from 5.0 to 8.0 percent, are limited obligations of the District, and shall be payable from, and secured by, a pledge of sales tax revenues received by the District on and after June 1, 1993. Interest payments are due on June 1 and December 1 of each year. \$104,939,000 of the proceeds from the 1993 Series A Bonds were used to purchase U.S. government securities which were placed into an irrevocable trust to be used to advance refund the 1990 Series A Bonds at a redemption price of 102 percent on June 1, 1998 (crossover date).

2005 Series A Refunding Bonds – In October 2005, the District issued \$218,990,000 in 2005 Series A Bonds to advance refund and legally defease the outstanding 1997, 1998 and 1999 Series A Bonds by placing the net proceeds of \$220,888,820 (including \$5,190,525 additional bond premium less \$3,291,703 in underwriting fees, insurance and other issuance costs) in an irrevocable trust with an escrow agent to provide for all future debt service payments on the old Series A Bonds which have been removed from the District's financial statements.

Both the 1999 and 1998 Series A Bonds were fully redeemed on June 1, 2010 and June 1, 2009, respectively. As of June 30, 2011 the outstanding balance on the 1997 Series A Bonds was \$27,410,000 with available investment balance held by the bond trustee of \$28,494,883.

The 2005 Series A Bonds, with interest rates ranging from 4.375 to 5.0 percent, are limited obligations of the District, and shall be payable from, and secured by, a pledge of sales tax revenues received by the District. Interest payments are due on June 1 and December 1 of each year. Principal payments will commence on June 1, 2021 and will mature on June 1, 2034.

NOTE 11 - LONG - TERM DEBT (continued)

2009 Series A Refunding Bonds – During Fiscal Year 2009, the District refunded its California Transit Finance Authority (CTFA) variable rate 1998 Junior Lien Sales Tax Revenue Bonds (CTFA Bonds) due to volatility in the financial markets to limit the District's exposure to changes in interest rates. In December 2008, the District purchased \$20,780,000 of its own outstanding CTFA bonds; \$18,364,368 of funding came from the District and the balance from CTFA bond principal and reserve funds held by the trustee.

On March 4, 2009, the District issued \$19,040,000 in fixed rate 2009 Series A Bonds to reimburse the District for the December 2008 purchase of the CTFA bonds. Net proceeds were \$20,420,709 including the bond premium less issuance costs. The refinancing of the CTFA Bonds decreased the length of the existing debt service obligations by nine years, from 2028 to 2019.

The 2009 Series A Bonds, with interest rates ranging from 3.0 to 5.0 percent, are limited obligations of the District, and shall be payable from, and secured by, a pledge of sales tax revenues received by the District. Interest payments are due on June 1 and December 1 of each year. The bonds will mature on June 1, 2019.

Debt Service Requirements

Debt Service requirements for long-term debt as of June 30, 2011 are as follows (in thousands):

	1993 Series A Bonds			2005 Series A Refunding Bonds

NOTE 12 – PENSION PLAN

Plan Description

All permanent employees are eligible to participate in the Public Employees' Retirement Fund (the Fund) of the State of California's Public Employees' Retirement System (CalPERS). The Fund is an agent multiple-employer defined benefit plan that acts as a common investment and administrative agent for various local and state governmental agencies within the State of California. The Fund provides retirement, disability, and death benefits based on the employee's years of service, age and final compensation. Employees vest after five years of service and may receive retirement benefits at age 50 and can receive the maximum benefit of 3 percent of annual salary at age 60. These benefit provisions and all other requirements are established by state statute and District ordinance. Copies of the Fund's annual financial report may be obtained from the CalPERS' executive office: Lincoln Plaza North, 400 Q Street, Sacramento, CA 95811.

Funding Policy

District employees have an obligation to contribute 7 percent of their salary to the Fund. The District makes the contributions required of the District and its employees on their behalf. The District is required to contribute at an actuarially determined rate. The required employer contribution rate for both fiscal years 2011 and 2010 were 7.517 and 7.703 percent of annual covered payroll, respectively. The contribution requirements of the plan members are established by state statute and the employer contribution rate is established and may be amended by CalFERS.

Annual Pension Cost

The District's annual pension cost was equal to the District's required and actual contributions, which were determined as part of the June 30, 2009 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included the following:

Investment rate of return 7.75% (net of administrative services)

Projected salary increase 3.55% to 14.45% depending on age, service and type of employment

Inflation 3.00% Payroll growth 3.25%

Individual salary growth A merit scale varying by duration of employment coupled with an

assumed annual inflation component of 3.0% and an annual

production growth of 0.25%

The actuarial value of assets was determined using a technique that smoothes the effect of short-term volatility in the market value of investments over a two to five-year period depending on the size of investment gains and/or losses. Unfunded actuarial accrued liability (or excess assets) is being amortized as a level percentage of projected payroll on a closed basis over a 30 year period.

NOTE 12 - PENSION PLAN (continued)

Annual Pension Cost (continued)

	Annual	Pension Cost	Percentage of APC	Net Po	ension
Fiscal Year Ending		(APC)	Contributed	Oblig	gation
6/30/2009	\$	7,064	100%		
6/30/2010		6,709	100%		-
6/30/2011		6,353	100%	7	_

Funded Status and Funding Progress

The funded status of the plan as of June 30, was as follows (in thousands):

	2011			2010	
Actuarial accrued liability (AAL)	\$	201,210	\$	189,495	
Actuarial value of plan assets		193,742		181,811	
Unfunded actuarial accrued liability (UAAL)	\$	7,468	\$	7,684	
Funded ration (actuarial value of plan assets/AAL)		96.3%		95.90%	
Covered payroll (active plan members)	\$	45,114	\$	47,646	
UAAL as a percentage of covered payroll		16.55%		16.13%	

The schedule of funding progress for the postemployment defined benefit pension plan is shown in the Required Supplementary Information immediately following the Notes to the Financial Statements. The table presents multi-year trend information about whether the actuarial value of plan asset is increasing or decreasing relative to the actuarial accrued liability for benefits overtime.

NOTE 13 - POST-RETIREMENT HEALTH CARE BENEFITS

Plan Description

In August 1993, the District's Board of Directors adopted the San Mateo County Transit District Retiree Healthcare Plan (Plan). The Plan is an agent plan administered by the CalPERS system. The Plan provides post-retirement medical care insurance to qualified retirees and their surviving spouses, those who have attained 50 years of age and have at least five years of District service. As of June 30, 2011 and 2010, there are 212 and 204 qualified retirees and spouses of deceased retirees, respectively. Benefit allowance provisions are established through agreements and memorandums of understanding (MOU) between the District, its management employees and unions representing District employees. The benefit provides a lifetime allowance to eligible plan members and their lifetime beneficiaries.

NOTE 13 - POST-RETIREMENT HEALTH CARE BENEFITS (continued)

Funding Policy

In April 2008, the District's Board of Directors adopted an Other Post Employment Benefit (OPEB) funding plan authorizing the establishment of an Internal Revenue Code (IRC) tax qualified trust which was established through the CalPERS California Employer's Retiree Benefit Trust (CERBT) in April 2009. The Plan also called for increasing amounts to be funded into the trust each year until the full Annual Required Contribution (ARC) can be funded on an annual basis. The District is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The current ARC rate is 7.5 percent of annual covered payroll. CalPERS will publish aggregated GASB 43 compliant financial statements, notes and required supplementary information.

Since January 1991, the District's contribution to the health care plan was based on prior year's retiree contribution plus 10 percent of active contribution based on the "unequal method" for all levels of coverage.

Effective January 2009, the District's medical plan changed in several ways due to the new union negotiated contract. The District established a PERS cafeteria plan which includes an employer contribution, an employee cafeteria benefit contribution and an Extended Illness Benefit. Employer contributions to the plan are based on the "equal method." The District's contribution towards medical premiums for Bay Area HMO's is 85 percent of the 2009 premiums for all coverage levels and is fixed at that rate. For active employees, the District contributes to the cafeteria benefit in an amount, that when added to the employer's contribution, will equal 100 percent of the PERS Bay Area HMO plan premiums. Annual increases to the Bay Area HMO plan premiums will be added to the employee's cafeteria benefit each year to equal the monthly premium. Eligible employees who elect not to participate in PERS medical can receive a monthly Cafeteria Plan benefit that may only be used to purchase the Cafeteria Plan Extended Illness Benefit. The Extended Illness Benefit may only be used by an employee who is on an approved leave of absence pursuant to FMLA, California's Family Right Act ("CFRA") or the Pregnancy Disability Act ("PDA") and has used all accrued paid time off.

The District established a retiree medical reimbursement trust for active employees to make tax exempt payroll contributions to help employees save for future retiree medical costs. These funds can only be used upon separation for internal revenue code deductible expenses (e.g. premium contributions and unreimbursed medical expenses).

In fiscal year ended June 30, 2011, the District contributed \$800,000 to the established trust fund through CERBT. In addition, the District contributed \$1,592,702 in pay-as-you-go amounts for the year ended June 30, 2011.

In fiscal year ended June 30, 2010, the District contributed \$600,000 to the established trust fund through CERBT. In addition, the District contributed \$1,388,814 in pay-as-you-go amounts for the year ended June 30, 2010.

NOTE 13 - POST-RETIREMENT HEALTH CARE BENEFITS (continued)

Annual OPEB Cost and Net Obligation

The District's annual OPEB cost (expense) is calculated based on the ARC of the employer. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the District's net OPEB obligation to the Plan (in thousands) for the fiscal year ended June 30, 2011 and June 30, 2010:

	-	year ended 30, 2011	For the year ended June 30, 2010		
Annual required contribution	\$	3,924	\$	3,660	
Interest on net OPEB obligation		307		204	
Adjustment to annual required contribution		(436)		(314)	
Annual OPEB cost (expense)		3,795		3,550	
Contribution made		(2,393)		(1,989)	
Increase in net OPEB obligation		1,402		1,561	
Net OPEB obligation, beginning of year		5,334		3,773	
Net OPEB obligation, end of year	\$	6,736	\$	5,334	

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation is as follows (in thousands):

Year Ended June	Ann	ual OPEB	. A	Actual	Percentage of	Ne	et OPEB
30,		Cost	Con	tribution	Contributed	Ol	oligation
2009	\$	3,312	\$	1,867	56.4%	\$	3,773
2010		3,550		1,989	56.0%		5,334
2011		3,795		2,393	63.1%		6,736

NOTE 13 – POST-RETIREMENT HEALTH CARE BENEFITS (continued)

Funded Status and Funding Progress

The funded status of the plan is as follows (in thousands):

	For Y	For Year Ended June 30, 2010		
	June			
Actuarial accrued liability (AAL)	\$	34,906	\$	34,906
Actuarial value of plan assets		1,280		1,280
Unfunded actuarial accrued liability (UAAL)	\$	33,626	\$	33,626
Funded ratio (actuarial value of plan assets/AAL)		3.7%		3.7%
Covered payroll (active plan members)	\$	49,055	\$	45,847
UUAL as a percentage of covered payroll		68.5%		73.3%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress located in the required supplementary information section shows multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefit for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility accrued liabilities and the actuarial value of assets, consistent with long-term perspective of the calculations.

In the June 30, 2011 and 2010 actuarial valuations, the Entry Age Normal (EAN) cost method was used. The actuarial assumptions included a variable investment return rate ranging from 4.5 percent in 2008 and 7.75 percent in 2016 based on the Board approved funding plan which gradually increases funding in an IRC Irrevocable Trust and a three percent inflation rate. Healthcare cost trends rates ranged from an initial rate of 8.5 to 4.5 percent after 5 years. The actuarial value of the District's assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over 15 years. The UAAL is being amortized as a level percent of payroll on a closed basis. The remaining amortization period at June 30, 2011 was 27 years.

NOTE 14 - SELF-INSURANCE

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The District is self-insured for a portion of its public liability, property damage and workers' compensation liability. As of June 30, 2011, coverage provided by self-insurance and excess coverage is generally as follows:

Type of Coverage	Self-Insurance (in Aggregate)	Excess Coverage (in Aggregate)
Public Liability and Property Damage	Up to \$1,000,000 per occurrence	\$100,000,000 per
		occurrence/annual aggregate
Workers' Compensation	Up to \$1,000,000 per occurrence	\$10,000,000 per occurrence

All property is insured at full replacement value. To date, there have been no significant reductions in any of the District's insurance coverage. In the past three years, there has been only one settlement in excess of the District's self insured retentions.

The unpaid claims liabilities are based on the results of actuarial studies and include amounts for claims incurred but not reported and incremental claim expenses. Allocated and unallocated claims adjustment expenses are included in the claims liability balances. Claims liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors. Annual expense is charged using various allocation methods that include actual costs, trends in claims experience, and number of participants. It is the District's practice to obtain full actuarial studies annually.

Changes in the balances of claims liabilities for the two years ended June 30, 2011 and 2010 for public liability, property damage and workers' compensation are as follows:

	:	2011		2010
Self – insurance liabilities, beginning of year	\$	10,635	\$	7,793
Incurred claims and changes in estimates		5,415		5,060
Claim payments and related costs		(2,117)		(2,218)
Total self – insurance claims liabilities		13,933		10,635
Less: current portion		(2,277)		(2,044)
Noncurrent portion	\$	11,656	\$	8,591

NOTE 15 – JAPANESE OPERATING LEASE

In Fiscal Year 2002, the District entered into two Japanese operating lease transactions (Leasing Transactions) with respect to 145 and 54 buses (Equipment), respectively, valued, in the aggregate, at \$48.2 million. In each Leasing Transaction, the District transferred title to the Equipment to a Japanese entity (Investor) and simultaneously leased the Equipment from the Investor for the District's operating use pursuant to an Equipment Lease Agreement. The District also put into place mechanisms to remind the District's of its option to purchase the leased buses for a specified price at the end of the Agreements and, at that time, it also set aside and invested funds with American International Group (AIG) for these future purchases. The District received aggregate net proceeds of \$1.5 million representing the difference between the appraised value of the buses and the net present value of the District's obligations under each Equipment Lease Agreement, including the purchase option price. The net proceeds of the Leasing Transactions were recorded as income in fiscal year 2002.

In March 2010, the first Japanese operating lease transaction expired by its terms, and the District exercised its option to purchase all 145 buses for the specified price of \$25.1 million. Of these 145 buses, 73 are 1993 Gillig forty-foot buses and 72 are 1998 Gillig forty-foot buses. The second lease expired in August 2010 and the District again exercised its option to purchase all 54 thirty five-foot 1993 Gillig buses for the specified price of \$5.4 million.

After seventeen years of service, the 1993 buses had reached the end of their useful life and were replaced by newer, more energy efficient buses. The District promptly put the 73 forty-foot 1993 buses and the 54 thirty five-foot 1993 buses up for sale and auction, and as of October 31, 2011 had sold 124 buses for total net proceeds of \$721,140. The 1998 buses remain in service.

NOTE 16 - PARATRANSIT TRUST FUND

Early in calendar year 2009, the TA transferred the \$25 million corpus of the paratransit trust fund to the District for oversight. The TA established the trust fund to continue in perpetuity from Measure A sales tax revenues. The TA was required to transfer the corpus of the paratransit trust fund to the District for administration upon expiration of Measure A on December 31, 2008 per the 1988 Transportation Expenditure Plan. The District now administers the fund and utilizes earnings on the corpus to fund paratransit activities.

NOTE 17 - COMMITMENT AND CONTINGENT LIABILITIES

Legal

The District is directly and indirectly involved in various litigation matters relating principally to claims arising from construction contracts, personal injury and property damage. In addition, the District has identified several sites which require environmental assessment and could result in undetermined cleanup costs. The potential costs to the District related to these environmental sites are highly uncertain, and the determination of the District's liability is dependent on the extent, if any, to which such costs are recoverable from insurance or other parties. In the opinion of District management, the ultimate resolution of these matters will not materially affect the District's financial position.

Grants

The District's grants are subject to review and audit. Such audits could lead to requests for reimbursement for expenditures disallowed under the terms of the grants. In the opinion of management, such allowances, if any, will not materially affect the District's financial position.

NOTE 17 - COMMITMENT AND CONTINGENT LIABILITIES (continued)

Fuel Hedge

In June 2011, the District entered into a diesel fuel price cap agreement with Deutsche Bank to hedge the cost of fuel for Fiscal Year 2012 which capped the price of fuel hedged by the District at \$2.90 per gallon. The District's Fiscal Year 2012 adopted budget for fuel expenses is \$5.6 million which is only a minimal increase, about \$54,000 or 1 percent, over the revised Fiscal Year 2011 budget. The District purchases fuel based on the average weekly spot price for Oil Price Information Service (OPIS) index. This method leaves the District open to fluctuation in the market for diesel fuel. The primary goal of the fuel hedging program is to reduce volatility and uncertainty in the fuel budget. The District hedged 0.9 million gallons, which represents approximately 50 percent of estimated fuel consumption. In order to maximize the hedging program's potential for economic efficiency, the District partnered with the JPB, which hedged 2.1 million gallons. The agreement documents include a Credit Support Annex which provides protection to the District in the event that the rating of Deutsche Bank falls to or below A3/A-/A- by Moody's, Standard and Poor's or Fitch. Implementing this fuel hedging program allowed the District to reduce uncertainty in the fuel budget for Fiscal Year 2012 and to take advantage of the relatively low market prices on the closing date of the transaction. Staff will return to the Board with results of the Fiscal Year 2012 fuel hedging program and a recommendation on whether to continue the program in Fiscal Year 2013.

BART

The District entered into a three-party agreement between MTC, BART, and the District in February 2007. In this three-party agreement, the District has assigned \$32 million to BART from State Infrastructure Bonds authorized by voter approved passage of Proposition 1B on November 7, 2006 and possibly in part from "spillover" funds allocated by MTC to come to the \$32 million. Since entering into the three-party agreement, the District has fulfilled its obligations under the agreement.

In FY2008 -

- The District received \$8.1 million in Prop 1B funds from the State and forwarded the equivalent amount in sales tax revenue on to BART; and
- MTC forwarded \$1.4 million in STA spillover funds originally designated for the District to BART.

In FY2010 -

- The District received \$2.6 million in Prop 1B funds from the State and forwarded the equivalent amount in sales tax revenue on to BART; and
- The District assigned \$6.5 million of FY2009 Proposition 1B funds originally designated for the District to BART.

In FY2011 -

• The District assigned \$13.4 million of FY2011 Proposition 1B funds originally designated for the District to BART.

With the final payment assignment in FY2011, SamTrans fulfilled its obligations to BART under the three-party agreement.

SAN MATEO COUNTY TRANSIT DISTRICT NOTES TO BASIC FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2011 AND 2010

NOTE 18 – SUBSEQUENT EVENTS

Bargaining Units

The District has two labor unions, the Amalgamated Transit Union, Local 1574 and the International Brotherhood of Teamsters, Local 856.

There are two bargaining units of the Amalgamated Transit Union (ATU). One unit consists of approximately 375 bus operators and maintenance employees and the other unit consists of 23 customer service representatives. There are also two bargaining units in the Teamsters Union. One unit consists of 20 bus transportation supervisors, dispatchers and radio controllers and the other unit consists of 2 bus contracts inspectors.

Negotiations with both units of the ATU were resolved by mutual agreement by a third party neutral. Agreements were reached between the parties with both units of the Teamsters by November 2011. This was the first labor contract for the customer service employees and for the bus transportation supervisory and bus contracts inspector units. The District was able to achieve its goals to reduce the District's expenses related to pension and medical benefits by agreeing to a fixed contribution toward medical benefits, an employee contribution to medical premium, a reduction in the employer paid member contribution to PERS pension and a two-tiered retirement system with reduced retirement benefit.

SAN MATEO COUNTY TRANSIT DISTRICT NOTES TO SUPPLEMENTARY SCHEDULE JUNE 30, 2011 AND 2010

NOTE 1 - BUDGETARY BASIS OF ACCOUNTING

The District prepares its budget on a basis of accounting that differs from Generally Accepted Accounting Principles (GAAP). The actual results of operations are presented in the Supplemental Schedule on the budgetary basis to provide a meaningful comparison of actual results with budget. In addition, certain budget amounts have been reclassified to conform to the presentation of actual amounts in the Supplemental Schedule. Budgeted amounts presented are the original adopted budget. The primary difference between the budgetary basis of accounting and GAAP concerns capital assets. Depreciation and amortization expense per GAAP is not budgeted and budgeted capital expenditures are not recorded as an expense per GAAP. In addition, unrealized gains and losses under GASB Statement No. 31 are not recognized.

NOTE 2 - RECONCILIATION OF BUDGETARY BASIS TO GAAP BASIS

A reconciliation of the budgetary basis of accounting to GAAP is as follows (in thousands):

Excess of revenues and non-operating income over expenses,		
capital outlay and debt principal payments		\$ (5,036)
Capital expenditures	\$ 14,480	(,,,,
Interest expense	(16,048)	
Depreciation and amortization	(41,838)	
Postemployment benefits accrual	(1,402)	
Long-term debt principal payments	8,370	
GASB 31 unrealized gain/loss	(1,949)	
Reimbursed investment interest	2,773	
Capital gain on investment	283	
Bond amortization expense	(787)	
Bond premium amortization - interest income	370	
Sub-total reconciling items		 (35,748)
Change in net assets, GAAP basis		\$ (40,784)

SAN MATEO COUNTY TRANSIT DISTRICT NOTES TO THE SCHEDULE OF EXPENDITURE OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 1 – REPORTING ENTITY

The Schedule of Expenditure of Federal Awards (the Schedule) includes expenditures of federal awards for the San Mateo County Transit District, and as disclosed in the notes to the Basic Financial Statements.

NOTE 2 - BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures of expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus applied. All proprietary funds are accounted for using the account basis of accounting. Expenditures of Federal Awards reported on the Schedule are recognized when incurred.

NOTE 3 - DIRECT AND INDIRECT (PASS-THROUGH) FEDERAL AWARDS

Federal awards may be granted directly to the District by a federal granting agency or may be granted to other government agencies which pass-through federal awards to the District. The Schedule includes both of these types of Federal award programs when they occur.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Members of the Board of Directors San Mateo County Transit District San Mateo, California

We have audited the financial statements of San Mateo County Transit District (District) as of and for the year ended June 30, 2011, and have issued our report thereon dated October 19, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States

Internal Control over Financial Reporting

Management of the District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance and other matters that are required to be reported under *Government Auditing Standards*.

We have also issued a separate Memorandum on Internal Control dated October 19, 2011, which is an integral part of our audits and should be read in conjunction with this report.

This report is intended solely for the information and use of management, Board of Directors, others within the District and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Members of the Board of Directors San Mateo County Transit District, San Carlos, California

Compliance

We have audited San Mateo County Transit District's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2011. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be *material weaknesses*, as defined above.

Schedule of Expenditures of Federal Awards

Maze & Association

We have audited the financial statements of the District as of and for the year ended June 30, 2011, and have issued our report thereon dated October 19, 2011. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, Board members, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

December 2, 2011
