Webinar ID: 944 0023 7842
Passcode: 044856
Phone only: (669) 900-9128

RSVP

[RSVPs](#) are encouraged.

Featuring

Keynote

William Riggs
Associate Professor
Autonomous Vehicles & the City Lead
University of San Francisco

Speakers

M. Imran Ali
Partnerships
Via Transportation

Jose Alvarado
Manager of Government Affairs
Cruise

Adam Burger
Senior Transportation Planner
Santa Clara Valley Transportation Authority

Peter Calcaterra
Senior Transportation Planner
Connecticut Department of Transportation

Jack Hall
ITS CV/AV Program Manager
Contra Costa Transportation Authority

Shaina Quinn
Innovative Mobility Solutions Researcher
Utah Transit Authority

Mark Rosekind
Chief Safety Innovation Officer
Zoox

Linsey Willis
Director of External Affairs
Contra Costa Transportation Authority

Facilitators

Steve Kuciemba
National ITS/CAV Practice Leader
WSP

Virginia Lingham
Senior ITS/CAV Program Consultant
WSP

Joint Chairs

Emily Beach
SMCTA Chair & Burlingame City
Council Member

Charles Stone
SamTrans Chair & Belmont Mayor

Progress toward autonomous personal and share autonomous transit vehicles (AV/SAV) has been steadily increasing over the past decade. However, most of the research and communications about the technology has been centered on how vehicles themselves adapt to the environment around it, rather than how cities should be preparing for the transition to a future that may include connected transit, autonomous shuttles, and driverless cars.

This virtual workshop, aimed at better understanding how autonomous technologies may impact travel and mobility in San Mateo County, will provide an overview of the current policy framework in California and beyond, and discuss current autonomous and connected vehicle technologies for personal, shared, and transit vehicle applications. Participants will collaborate on ideas regarding how local jurisdictions, SMCTA and SamTrans can start thinking about how transit, project/infrastructure, and policy decisions will need to adapt to an AV/SAV future.
